

Freddy Jara-Almonte — 50-Bot Fleet Comprehensive Reference Guide

Complete Post-Merge Architecture, Day-to-Day Operations, Connected Services, & Asset Inventory

Owner: Freddy Jara-Almonte (Retired USAF Combat Veteran, Spring Hill / Brooksville, FL) | **Compiled:** Sunday, October 25, 2026 (America/New_York / EDT) | **Version:** v5.0 (Post-Merges + IT Security Expansion)

50	2 + 7	9	13	10	9
TOTAL ACTIVE BOTS	PINNED + PERSONAL	GGL AGENCY TEAM	WORK FORCE BOTS	BUSINESS BOTS	GITHUB APP BOTS

1. COMMAND HIERARCHY & ORCHESTRATION MODEL

- **Fleet Owner:** Freddy Jara-Almonte (Retired USAF Combat Veteran; Founder of Computing Made Easy LLC, Get Global Listing, Smart Touch Homes, & All Trade Handyman LLC).
- **Fleet-Wide Front Door:** `Chief` (`c5c3f1ec`) routes cross-business work, runs the 8:00 AM daily briefing, and maintains the 2D/3D Fleet Schematics & this Reference Guide.
- **Personal & Household Hub:** `Personal Assistant` (`146b3e6b`) coordinates personal calendar, email triage, shopping, dining, and home/travel specialists.
- **GGL Agency Pipeline:** `GGL Chief` (`4bfdede6`) orchestrates the 8 GGL specialist bots + shared builders `App Designer` (`085ada32`) and `Site Creator` (`5e66e07a`).
- **Infra, Health & IT Security Pair:** `Bot Health Monitor` (`17f21c39` , watch-only uptime/quota checks) + `Bot Maintenance` (`06e7b43e` , box RAM/swap repairs + fleet-wide IT Security, secret scanning, & SSL/domain audits).

2. STANDING FLEET-WIDE RULES & GUARDRAILS

- **Hard Approval Gate:** No bot ever sends an external email/SMS, publishes to production, spends money, or deletes files without Freddy's explicit approval.
- **App Center Sync & Zero-GitHub-Link Rule:** Every app updated on GitHub (`freddyja`) must be synced in the same pass to `https://computingmadeeasy.org/app-center/` with **zero** links or buttons pointing to `github.com` or `github.io` .
- **Docu Cabinet Archive Rule:** Every bot that creates or updates a document sends a copy notice to `Docu Cabinet` (`1f76e859`) at `/home/box/shared/docu-cabinet/` .
- **FreddyWorkPC Sync Rules:** GGL & Work Force bots copy deliverables to `C:\Users\Freddy\OneDrive\Desktop\Grok GGL\<Bot Name>\` ; all bots export memory to `Grok Bot Memory\<Bot Name>\` .
- **GGL Trilingual + 4-Button Standard:** All GGL assets support **EN / ES / PT**; every GGL client app includes Trilingual toggle, Share, Install (PWA), and Auto-Update buttons.

MASTER 50-BOT ACTIVE FLEET ROSTER (GROUPED BY SIDEBAR SECTION)

#	BOT NAME	AGENT ID (DISK / REF)	SIDEBAR GROUP	PRIMARY ROLE & OPERATIONAL SCOPE
#01	**Chief** OCT 25 MERGE	`c5c3f1ec`	Pinned	Executive Fleet Commander, Primary Point of Contact, Task Router, & 2D/3D Fleet Schematic Architect
#02	**Personal Assistant**	`146b3e6b`	Pinned	Freddy's Dedicated Personal-Life Executive Assistant (Calendar, Gmail Triage, Family, Church, & Hobbies)
#03	🎖️ **Vet Buddy**	`2ad18f4b`	Personal	U.S. Veterans Affairs (VA) Benefits, Health Care, Disability Claims, & Survivor Benefits Navigator
#04	**House Fixer**	`58c838ca`	Personal	Interactive Home-Upkeep Notebook & Maintenance Reminder Tracker (HVAC, Appliances, Paint, & Parts)
#05	**AI Phone Assistant**	`5fe47fc3`	Personal	Automated Outbound & Inbound Voice Call Agent via Bland AI & Twilio with Email Recaps
#06	**last30days**	`128aae62`	Personal	Real-Time 30-Day Multi-Platform Social & Community Pulse Researcher (Reddit, X, YouTube, TikTok, HN, Web)
#07	**Grok Watch**	`c8544621 (ref: da5bc7bd)`	Personal	Daily xAI, Grok, & Grok Bot Feature & Release Notes Scout
#08	**DJ Bot**	`806ebae5`	Personal	Spotify & YouTube Party Playlist Curator, Tracklist Archivist, & Synced Lyrics Verifier
#09	**Bounty Hunter**	`7ac4f7e7`	Personal	Read-Only Personal & Business Refund, Billing Error, Duplicate Subscription, & Unclaimed Money Auditor
#10	**GGL Chief**	`4bfdede6`	GGL	Get Global Listing (GGL) Team Lead, Conversational Coordinator, & Pipeline Router

#21	**Grok Bot Creator**	`21cd64c6`	Work Force	Fleet Architect, New Bot Designer (CreateAgent), & Automated Transcript/Routine Healthcheck Auditor
#22	**Business Creator**	`4b2b6c53`	Work Force	New Venture Incubator & Launch Kit Builder (Positioning, Offer, ICP, Financial Projections, & 90-Day Plan)
#23	**Claude Bridge**	`4cbbce70`	Work Force	Anthropic Claude + GitHub (freddyja) Coding & WordPress App Center Deployment Bridge
#24	**Travel Concierge** OCT 25 MERGE	`816a7a67`	Work Force	End-to-End Trip Planner & Military/Disabled-Veteran + Amex Platinum Hotel/Flight Deal Hunter
#25	**Docu Cabinet**	`1f76e859`	Work Force	Centralized Versioned Document Archive, Master Indexer (INDEX.md / INDEX.csv), & Business Package Keeper
#26	**Marketplace Desk**	`20617539`	Work Force	Offline Facebook Marketplace & OfferUp Listing Manager, Buyer Reply Drafter, & Scam Filter
#27	**Bot Health Monitor**	`17f21c39`	Work Force	Watch-Only Fleet Liveness, Live Site Uptime, Connector Status, & Weekly Service Quota Auditor
#28	**Bot Maintenance** IT SEC +45m	`06e7b43e`	Work Force	Shared Box Sysadmin (RAM, 8 GB Swap, Orphaned Process Cleanup) & Fleet IT Security / Secret / SSL Auditor
#29	**Outbound Bot**	`1315f48c`	Work Force	B2B Prospect Researcher, Intent Scorer, & Personalized First-Touch Email/LinkedIn Outreach Drafter
#30	**Stalk Bot**	`5b6380a7`	Work Force	Competitive Intelligence Scout (Competitor Pricing, Website Diffs, Onboarding Video Capture, & X/Changelog Monitor)
#31	**Due Diligence Analyst**	`c2ba2c07`	Work Force	Primary-Evidence Deal, Vendor, Partner, & Acquisition Vetting Analyst (Claim Ledgers & Risk Registers)
#32	**Smart Touch Homes**	`fead274c`	Business Bots	Computing Made Easy LLC & Smart Touch Homes Hub (WordPress App Center Owner & Smart-Home Proposal Desk)
#33	**All Trade Handyman**	`dfdaba2f (ref: d303c3cf)`	Business Bots	All Trade Handyman LLC Operations, Job Estimator, Invoice Drafter, & athandyman.com Site Manager
#34	**Y&M Total Solutions**	`4657e8cf`	Business Bots	Commercial Landscaping & Property Maintenance Bid Desk, B2B Lead Hunter, & Bilingual Proposal Builder
#35	**Realty Desk**	`601583ab`	Business Bots	Real Estate Listing Research, Comps & CMA Analyzer, VA Loan / Property Tax Evaluator, & Offer Strategist
#36	**Gibney Dental**	`77efa0a9`	Business Bots	Dental Practice Operations, dentaltracker-v2 App Owner, & Gibney Dental (Spring Hill, FL) Digital Suite

#	BOT NAME	AGENT ID (DISK / REF)	SIDEBAR GROUP	PRIMARY ROLE & OPERATIONAL SCOPE
#37	**Florida Açaí**	`3c8c014e`	Business Bots	Açaí Bowl & Smoothie Brand Operations, Menu/COGS Pricing Calculator, & Social/Local Launch Strategist
#38	**Ola**	`5c08d413`	Business Bots	Ola's Sandwich & Gourmet Boar's Head Ordering App Owner (olas-ordering) & Catering Operations Desk
#39	**Food Truck**	`032b06b1`	Business Bots	Bilingual (ES/EN) Smash Burger & Birria Food Truck PWA (La Ruta / Sabor & Fuego), KDS, & Voice AI Ordering Desk
#40	**Organic House Cleaning**	`8dd2016c`	Business Bots	Non-Toxic Eco-Friendly Residential Cleaning App Owner (organic-house-cleaning) & Booking/Quote Desk
#41	**Hermes Trailer**	`de13b5b3 (ref: e1d4455d)`	Business Bots	Custom Enclosed Cargo Trailer Configurator & Dealer Quote App Owner (enclosed-trailer)
#42	**Fire Fellowship and Bible Verse**	`59702a69`	GitHub Bots	Men's Ministry App Suite Owner: Living Word Bible Verse Tracker & Fire and Fellowship Live Sermon Captions
#43	**Kingdom Sisters**	`5c68fc7f`	GitHub Bots	Women's Devotional & Prayer App Owner (60 Seconds in the Word for Women / Kingdom Sisters)
#44	**Meeting Translator**	`5e7583cb`	GitHub Bots	Real-Time Multilingual Phone-to-TV Live Caption & Translation PWA Owner (meeting-translator-captions)
#45	**Biblical Pharmacy**	`cb6c74c6 (ref: f6b8a014)`	GitHub Bots	Scripture-By-Emotional/Spiritual-Need Remedy App & Holistic Biblical Wellness Guide Owner
#46	**Arise with Grace Coffee**	`19c08eff`	GitHub Bots	Faith-Inspired Specialty Coffee Shop Brand, 900 Sq Ft Café Launch Operations, & Ordering App Owner
#47	**Faithful Service Network**	`fc4d931e (ref: e44fc947)`	GitHub Bots	Christian & Veteran-Trusted Home/Business Service Directory & Vetted Tradesperson Referral App Owner
#48	**Pantry Desk**	`7bec440c`	GitHub Bots	Household & Ministry Pantry Inventory, Barcode/Expiration Tracker, & Recipe-From-Stock App Owner
#49	**Doula**	`d1385996 (ref: bc712c9b)`	GitHub Bots	Christian Birth & Postpartum Doula Companion App, Contraction Timer, & Birth-Plan Builder Owner
#50	**Booth Ops** OCT 25 MERGE	`4e890ef3`	GitHub Bots	360 Photo Booth Software Engineer & Event Rental Business Operations Owner (360show / 360show.vercel.app)

FLEET CONSOLIDATION LEDGER — TODAY'S 6 MERGES (OCT 25, 2026: 57 → 50 ACTIVE BOTS) + BOT MAINTENANCE IT SECURITY EXPANSION

On **Sunday, October 25, 2026**, 6 redundant specialist bots (plus 1 throwaway blank `New Agent`) were consolidated into surviving active bots, reducing the active roster from 57 to **50 active bots**. In addition, **Bot Maintenance (`06e7b43e`)** was expanded on Oct 25, 2026 to own fleet-wide **IT Security Monitoring** (box/Tailscale port & daemon audits, GitHub/workspace secret scanning, and domain SSL/TLS/DNS/security-header audits). All pre-merge memories and files are preserved in `/home/box/shared/bot-memory-export/`.

#	RETIRED / MERGED BOT	SURVIVING ACTIVE BOT	CAPABILITIES, MEMORY & WORKFLOWS ABSORBED INTO SURVIVING BOT
M1	**Deal Scout (0c68fe3f)** Group: Work Force (Retired Oct 25)	**Travel Concierge (816a7a67)** Group: Work Force	All retired-military / 100% disabled USAF veteran hotel, flight, resort, and cruise deal-hunting logic (AFVC, Shades of Green, GovX, ID.me, military rate codes SML/SALUTE) stacked with American Express Platinum benefits (Fine Hotels + Resorts, The Hotel Collection, $200 hotel credit, Hilton/Marriott Gold status, Centurion Lounge) is now unified inside Travel Concierge alongside full itinerary & trip planning. **Memory Archive:** `/home/box/shared/bot-memory-export/deal-scout-0c68fe3f/`
M2	**Bible Verse Tracker (ab4fc49b)** Group: GitHub Bots (Retired Oct 25)	**Fire Fellowship and Bible Verse (59702a69)** Group: GitHub Bots	Full ownership of The Living Word / Bible Verse Tracker PWA (freddyja/bible-verse-tracker, computingmadeeasy.org/bible-verse-tracker/, Cloudflare Worker living-word-prayer-proxy, EN/ES/PT study-Bible tabs, Sermon Maker DOCX generator, Gospel Q&A, and personal verse/voice-note categories) is now unified with the Fire and Fellowship live EN/ES/PT caption app (freddyja/fire-fellowship-captions). **Memory Archive:** `/home/box/shared/bot-memory-export/bible-verse-tracker-ab4fc49b/`
M3	**GGL Interaction Schematic (f874630d)** Group: GGL (Retired Oct 25)	**Chief (c5c3f1ec)** Group: Pinned Top-Level	All 2D PDF/PNG and interactive 3D WebGL schematic generation for both the Get Global Listing (GGL) team and the entire 50-bot fleet (including Bot Universe 3D at bot-universe-3d.vercel.app, per-group schematics, and GGL intake workflow diagrams) is now owned directly by Chief. **Memory Archive:** `/home/box/shared/bot-memory-export/ggl-interaction-schematic-f874630d/`
M4	**AI Search Bot (a800cd23)** Group: Work Force (Retired Oct 25)	**GGL SEO (2bc3b36c) & GGL SiteAudit (3d45805f)** Group: GGL	Split cleanly between GGL's two search specialists: (a) GGL SEO absorbed ongoing AI Search Visibility (AEO/GEO) — testing buyer prompts across ChatGPT, Perplexity, Claude, Grok, and Google AI Overviews and crafting citation action plans; (b) GGL SiteAudit absorbed technical AI crawler readiness audits — checking robots.txt (GPTBot, ClaudeBot, PerplexityBot, Google-Extended), llms.txt, and JSON-LD schema markup during pre-pitch and pre-launch site audits. **Memory Archive:** `/home/box/shared/bot-memory-export/ai-search-bot-a800cd23/`
M5	**CME Web App Center (c3f95b69)** Group: Business Bots (Retired Oct 25)	**Smart Touch Homes (fead274c)** Group: Business Bots	Full ownership of the Computing Made Easy / Smart Touch Homes website (https://computingmadeeasy.org/) and the central App Center (https://computingmadeeasy.org/app-center/, WordPress plugins cme-app-host and cme-more-apps hosting 30+ apps with zero GitHub links) is now unified with Smart Touch Homes' IT, home automation, and security operations. **Memory Archive:** `/home/box/shared/bot-memory-export/cme-web-app-center-c3f95b69/`
M6	**GGL Website Builder (305e99c8) & GGL App Creator (e62e6465)** Group: GGL (Retired Oct 25)	**Site Creator (5e66e07a) & App Designer (085ada32)** Group: Work Force	Consolidated GGL web and app production into Freddy's two primary design-engineering bots: (a) Site Creator absorbed GGL Website Builder (owning the 27-page EN/ES/PT WordPress site at getgloballisting.com and all GGL client package websites); (b) App Designer absorbed GGL App Creator (owning the GGL Customer Intake App at freddyja/ggl-intake-app and all GGL client package apps with mandatory EN/ES/PT, Share, Install, and Auto-Update buttons). **Memory Archive:** `/home/box/shared/bot-memory-export/ggl-website-builder-305e99c8/ & ggl-app-creator-e62e6465/`
+SEC	**New Capability Added Oct 25** (Fleet IT Security Monitoring)	**Bot Maintenance (06e7b43e)**	Added read-only/report-first **IT Security Monitoring & Audits**: (1) Box & Tailscale port/daemon/permission audits (`ss -tulpn` on `freddy-grokbot`), (2) Secret & credential hygiene scanning across `/home/box/shared/`, `/workspace/`, and `freddyja` GitHub repos, and (3) Domain SSL/TLS expiration, DNS/SPF/DKIM/DMARC, and HTTP security header

#	RETIRED / MERGED BOT	SURVIVING ACTIVE BOT	CAPABILITIES, MEMORY & WORKFLOWS ABSORBED INTO SURVIVING BOT
			audits across `computingmadeeasy.org`, `getgloballisting.com`, `athandyman.com`, and Vercel/Render apps.

Pinned Top-Level Bots (2 Bots)

2 ACTIVE BOTS

Freddy's two primary executive entry points pinned at the very top of the Grok Bot sidebar: Chief (overall fleet command, task routing, and 2D/3D fleet schematic builder) and Personal Assistant (personal calendar, Gmail triage, family, church, hobbies, and errands).

#01 Chief `ID: c5c3f1ec` Pinned Top-Level

Executive Fleet Commander, Primary Point of Contact, Task Router, & 2D/3D Fleet Schematic Architect

REPORTS TO
Freddy Jara-Almonte (Owner)

★ **MERGED OCT 25: Absorbed GGL Interaction Schematic (f874630d)**

EXACT JOB & PURPOSE

Freddy's main executive point of contact across the entire 50-bot fleet. Chief takes everyday text and voice requests inline, answers quick questions directly, delegates specialized work to the exact right bot across Personal, GGL, Work Force, Business Bots, and GitHub Bots, and owns the creation and maintenance of all 2D PDF/PNG and interactive 3D WebGL bot interaction schematics for both Get Global Listing (GGL) and the full 50-bot fleet (having absorbed GGL Interaction Schematic on Oct 25, 2026). Also coordinates Freddy's numbered 'Business Package' ZIP rebuilds with Docu Cabinet.

ANTI-JOBS & BOUNDARIES

> Never books, buys, or pays on its own; never sends external emails, Slack messages, or texts without Freddy's explicit approval (always drafts first); never ships application code or opens GitHub PRs directly (routes to Claude Bridge or the owning app bot); never runs standing background cron routines itself; never modifies, renames, or deletes existing bots unless Freddy explicitly asks.

DAY-TO-DAY OPERATIONS

- Trigger Mode: On-demand chat & voice call relay (voice channel integration), plus inter-bot escalations from GGL Chief and Work Force/Business bots.
- Routing & Handoffs: Dispatches travel/deals -> Travel Concierge; app UI & GGL apps -> App Designer; 360show booth ops -> Booth Ops; marketing & GGL sites -> Site Creator; launch kits -> Business Creator; Claude/GitHub builds -> Claude Bridge; GGL operations -> GGL Chief; SEO & AI search -> GGL SEO / GGL SiteAudit; home/IT & CME App Center -> Smart Touch Homes; and each business/faith app to its dedicated bot.
- Schematic & Package Outputs: Builds versioned 2D PDFs/PNGs (`All_Bots_Schematic_v5.pdf`) and interactive 3D WebGL schematics (`All_Bots_3D_v3.html` + group 3D views), publishes to `bot-universe-3d.vercel.app` , and syncs deliverables to Docu Cabinet and `C:\Users\Freddy\OneDrive\Desktop\Grok GGL` + `Grok Bot Memory\<Bot>\` on FreddyWorkPC.

CONNECTED SERVICES, APIS & CONNECTORS

- Grok Bot Agent Inbox: `chief.freddy@mail.grokbot.com` (monitors incoming agent mail from Kyle Kimbrell `kyle-chief@mail.grokbot.com` , Lisa `lisa.mamabear@mail.grokbot.com` , etc.; alerts Freddy, never auto-replies)
- MCP Connectors: Gmail (`user-Gmail`), Google Drive (`user-Google-drive`), Google Docs (`user-Google-docs`), Google Slides (`user-Google-slides`), Google Calendar (`user-Google-calendar`), Vercel (`user-Vercel`), Canva (`user-Canva`), GitHub (`cursor-github`)
- Local & Desktop Bridge: FreddyWorkPC (`machineId: 872fc97f-ba30-4f68-95bb-c4bc67acf5cc`) via CopyFromBox/CopyToBox, Tailscale (`freddy-grokbot`), Python ReportLab/Pillow/Playwright

KEY FILES, SHARED FOLDERS, REPOS & LIVE URLS

- Live Web Viewer: https://bot-universe-3d.vercel.app/ (Interactive 3D & 2D Fleet Schematics)
- Shared Box Paths: `/home/box/shared/chief/bot-3d/` , `/workspace/schematic/` , `/workspace/bot3d/site2/` , `/home/box/shared/freddy/profile-photo.jpg`
- Docu Cabinet Archives: `/home/box/shared/docu-cabinet/Bot Schematics/` , `/home/box/shared/docu-cabinet/Business Package/` , `/home/box/shared/docu-cabinet/Grok Bot Operations/Chief/`
- Merged Memory Archive: `/home/box/shared/bot-memory-export/Chief/` & `/home/box/shared/bot-memory-export/ggl-interaction-schematic-f874630d/`

#02 Personal Assistant

ID: 146b3e6b | Pinned Top-Level

Freddy's Dedicated Personal-Life Executive Assistant (Calendar, Gmail Triage, Family, Church, & Hobbies)

REPORTS TO
Freddy Jara-Almonte (Owner)

EXACT JOB & PURPOSE

Dedicated exclusively to Freddy Jara-Almonte's personal life (leaving all commercial businesses to their dedicated business bots). Manages personal calendar appointments, recurring reminders, personal Gmail triage (`fjaraalmonte@gmail.com` — summarizing, flagging urgent items, and drafting replies), family coordination with his wife Raquel Jara-Almonte (`rjaraalmonte@gmail.com` , who also has her own Chief bot), church and home fellowship logistics (Life Church Now in Spring Hill, FL; trilingual EN/ES/PT home fellowship), hot air balloon flights and chase crew logistics, personal shopping, and travel handoffs to Travel Concierge.

ANTI-JOBS & BOUNDARIES

> Never sends emails or messages, buys, books, or deletes anything without Freddy's explicit OK; never modifies other bots; never takes on commercial business work (routes business tasks immediately to Chief or the matching Business Bot).

DAY-TO-DAY OPERATIONS

- Trigger Mode: On-demand chat & voice, plus custom recurring reminder routines created whenever Freddy says 'remind me'.
- Daily Operations: Triages `fjaraalmonte@gmail.com` , proposes concise morning briefs, coordinates family/event schedules in `America/New_York` (ET), checks/curates personal Spotify playlists in the box browser when asked (e.g., Raquel's Birthday Party Mixes), and hands hotel/flight deal searches to Travel Concierge.
- File Handoffs: Sends a copy of every created personal document or checklist to Docu Cabinet (`1f76e859`).

CONNECTED SERVICES, APIS & CONNECTORS

- MCP Connectors: Gmail (`user-Gmail` for `fjaraalmonte@gmail.com`), Google Calendar (`user-Google-calendar`), Google Drive (`user-Google-drive`), Google Docs (`user-Google-docs`)
- Browser Sessions: Signed-in Spotify (`fjaraalmonte`) on the shared box browser; Amazon / retail lookup skills (`shopping` , `orders-and-returns` , `scheduling`)

KEY FILES, SHARED FOLDERS, REPOS & LIVE URLS

- Key Playlists Created: Raquel Birthday Party Mix (`https://open.spotify.com/playlist/3PqKPnYq01N0kHEPI5sJuO` , 90 tracks) & Short Mix (`https://open.spotify.com/playlist/34fUokzaZqZSL70mHwAYmO` , 44 tracks)
- Shared Box Paths: `/home/box/shared/bot-memory-export/Personal Assistant/Past-Memory-thru-2026-10-17.md` (Avatar: custom portrait of Raquel set at Freddy's request)

Personal Section (7 Bots)

7 ACTIVE BOTS

Dedicated personal-life specialists covering VA disability & healthcare navigation (Vet Buddy), household maintenance records (House Fixer), automated Bland AI / Twilio phone calls (AI Phone Assistant), 30-day multi-platform social/web research (last30days), daily xAI/Grok feature tracking (Grok Watch), Spotify & YouTube party playlist management (DJ Bot), and bi-weekly personal/business refund & subscription waste audits (Bounty Hunter).

#03 Vet Buddy

ID: 2ad18f4b | Personal

U.S. Veterans Affairs (VA) Benefits, Health Care, Disability Claims, & Survivor Benefits Navigator

REPORTS TO
Chief / Freddy

EXACT JOB & PURPOSE

Dedicated VA benefits navigator built for veterans, families, and survivors — tailored to Freddy as a retired U.S. Air Force combat veteran (100% disabled veteran) and his family in Spring Hill / Brooksville, FL. Puts VA health care first and covers disability claims, ratings, secondary conditions, Compensation & Pension (C&P) exam preparation, GI Bill / Dependents' Educational Assistance (Chapter 35), VA home loan COE/funding fee waivers, CHAMPVA, property tax exemptions, pension, and survivor benefits (DIC).

ANTI-JOBS & BOUNDARIES

> Never provides formal legal representation or accredited VSO filing without Freddy's action; never submits VA forms, alters VA.gov records, or shares private medical/service data externally without explicit permission.

DAY-TO-DAY OPERATIONS

- Trigger Mode: On-demand chat & voice.
- Daily Operations: Generates step-by-step VA benefit checklists, prepares C&P exam evidence guides, explains 38 CFR rating criteria and Florida 100% P&T veteran state benefits (homestead property tax exemption, license plates, state park passes, spouse/dependent education), and sets follow-up reminders for claim deadlines.
- Outputs: Plain-English benefit briefs, evidence checklists, and claim prep packets synced to Docu Cabinet.

CONNECTED SERVICES, APIS & CONNECTORS

- Web & Official Sources: VA.gov public resources, 38 CFR / M21-1 adjudication manual lookups, Florida Department of Veterans' Affairs (FDVA) guidelines
- Connectors: Google Docs / Drive for benefit checklists, Docu Cabinet filing

KEY FILES, SHARED FOLDERS, REPOS & LIVE URLS

- Agent Profile & Store: `/home/box/agent-data/agents/2ad18f4b-e228-4b71-8c5e-fdcee841deb6/profile.json`
- PC Sync Path: `C:\Users\Freddy\OneDrive\Desktop\Grok Bot Memory\Vet Buddy\` on FreddyWorkPC

#04 House Fixer `ID: 58c838ca` Personal

Interactive Home-Upkeep Notebook & Maintenance Reminder Tracker (HVAC, Appliances, Paint, & Parts)

REPORTS TO
Chief / Freddy

EXACT JOB & PURPOSE

Freddy's persistent home-upkeep notebook. Maintains a running, editable record of household maintenance specs, model/serial numbers, filter sizes, paint codes, and replacement schedules so Freddy can query or update any house fact in plain words without guessing. Tracks HVAC air filters (16x20x1 living room intake & 12x12x1 office intake, Filtrete MERV 5), two Samsung French-door refrigerators (`RF28R7551SR/AA` 2019 & `RF28HMEDBSR/AA` 2016) and their water filters (`Waterdrop WD-F45` / `Samsung DA97-17376B HAF-QIN/EXP`), paint colors by room, and plumbing parts.

ANTI-JOBS & BOUNDARIES

> Never guesses a part number or measurement that isn't recorded (states plainly when an item is unrecorded); never buys or orders parts on its own; never sends external emails or messages; never deletes or overwrites files on FreddyWorkPC (saves dated copies instead).

DAY-TO-DAY OPERATIONS

- Trigger Mode: On-demand chat (including label/appliance photo uploads) + scheduled daily maintenance check routine (~9:13 AM ET, silent unless an item is due).
- Daily Operations: Logs new parts from photos or Amazon order history, updates `/home/box/shared/fixer/home-upkeep.md` with a dated changelog, nudges Freddy when a 90-day air filter or 6-month water filter replacement is due, and rolls the next due date forward once Freddy confirms completion.
- PC Sync Rule: After every update, copies dated Markdown files to `C:\Users\Freddy\OneDrive\Desktop\Grok GGL\Fixer\` on FreddyWorkPC (`872fc97f`).

CONNECTED SERVICES, APIS & CONNECTORS

- Local Box Storage & Vision: Inline image reading (`Read` tool on appliance serial/model sticker photos), Markdown ledger management
- PC Sync: `CopyFromBox` to FreddyWorkPC (`872fc97f-ba30-4f68-95bb-c4bc67acf5cc`), Gmail order lookup for past filter purchases

KEY FILES, SHARED FOLDERS, REPOS & LIVE URLS

- Canonical Notebook: `/home/box/shared/fixer/home-upkeep.md`
- PC Sync Folder: `C:\Users\Freddy\OneDrive\Desktop\Grok GGL\Fixer\` on FreddyWorkPC

#05 AI Phone Assistant `ID: 5fe47fc3` Personal

Automated Outbound & Inbound Voice Call Agent via Bland AI & Twilio with Email Recaps

REPORTS TO
Chief / Freddy

EXACT JOB & PURPOSE

Places and answers phone calls on Freddy's behalf through Bland AI connected to Freddy's own Twilio phone number, then sends Freddy a structured email recap of every call (transcript summary, caller details, outcome, and next steps). Also walks through Bland AI and Twilio API/number setup on first use.

ANTI-JOBS & BOUNDARIES

> Never places outbound calls, commits Freddy to appointments/payments over the phone, or sends external communications without Freddy's explicit authorization; never exposes `BLAND_API_KEY` or Twilio credentials in chat.

DAY-TO-DAY OPERATIONS

- Trigger Mode: On-demand chat request to place a call + inbound call webhook/polling via Bland AI.
- Daily Operations: Configures call prompt/objective, executes voice calls via Bland AI on Freddy's Twilio number, retrieves call transcripts and recordings, and emails a concise recap to `fjaraalmonte@gmail.com` . Usage and minute burn are audited weekly by Bot Health Monitor (`17f21c39`).

CONNECTED SERVICES, APIS & CONNECTORS

- Voice & Telephony APIs: Bland AI API (`BLAND_API_KEY` stored via secret-request), Twilio Programmable Voice number
- Connectors: Gmail (`user-Gmail`) for delivering post-call recaps

KEY FILES, SHARED FOLDERS, REPOS & LIVE URLS

- Agent Profile & Store: `/home/box/agent-data/agents/5fe47fc3-310b-475e-9594-be980ce4522c/profile.json`
- Quota Monitoring: Tracked in `/home/box/shared/bot-health/weekly_usage_rollup.py`

#06 last30days `ID: 128aae62` Personal

Real-Time 30-Day Multi-Platform Social & Community Pulse Researcher (Reddit, X, YouTube, TikTok, HN, Web)

REPORTS TO
Chief / Freddy

EXACT JOB & PURPOSE

Researches what real people are actually saying about any topic, product, tool, or trend over the last 30 days. Maintains the `last30days` skill from GitHub, handles first-run setup (ScrapeCreators via GitHub for free credits, X connector, YouTube, and free CLIs), and synthesizes grounded, cited intelligence briefs from Reddit, X, YouTube, TikTok, Hacker News, Polymarket, GitHub, and the live web.

ANTI-JOBS & BOUNDARIES

> Never fabricates quotes or social sentiment; never posts, comments, or interacts on social platforms; never upgrades to paid scraping plans without Freddy's permission.

DAY-TO-DAY OPERATIONS

- Trigger Mode: On-demand chat query + automated 30-day GitHub skill version check.
- Daily Operations: Queries multi-platform sources over a strict trailing 30-day window, filters out SEO spam in favor of authentic user discussions, and produces a structured brief with direct links, sentiment breakdown, and actionable takeaways.
- Outputs: Grounded 30-day research briefs saved to `/workspace` and filed with Docu Cabinet when requested.

CONNECTED SERVICES, APIS & CONNECTORS

• Research Sources & Connectors: X MCP connector (`x`), ScrapeCreators CLI, YouTube / Reddit / Hacker News / Polymarket / TikTok / GitHub (`cursor-github`), Parallel Web Search (`parallel-web-search`)

KEY FILES, SHARED FOLDERS, REPOS & LIVE URLS

• Agent Profile & Store: `/home/box/agent-data/agents/128aae62-6d6e-4dc6-b1be-efd1b5f6fa6b/profile.json`

#07 Grok Watch `ID: c8544621 (ref: da5bc7bd)` Personal

Daily xAI, Grok, & Grok Bot Feature & Release Notes Scout

REPORTS TO
Chief / Freddy

EXACT JOB & PURPOSE

Keeps Freddy up to date on genuinely new features, model releases, connectors, and capabilities from Grok (the xAI assistant), xAI, and Grok Bot. Monitors public sources only: xAI announcements (`https://x.ai/news`), release notes, blog posts, documentation changelogs, and official X accounts (`@xai` , `@grok` , `@imagine`). Maintains a deduplicated seen-items ledger so Freddy only hears about brand-new releases.

ANTI-JOBS & BOUNDARIES

> Never posts, replies, likes, or sends external messages or emails; never changes other bots or system settings; never makes purchases; never sends noisy 'nothing new today' filler messages when there are no new features.

DAY-TO-DAY OPERATIONS

- Trigger Mode: Daily morning scheduled routine (~7:41 AM ET) + on-demand chat.
- Daily Operations: Scans `@xai` / `@grok` via the `x` connector and `x.ai/news` , compares against `/home/box/shared/grok-watch/seen.md` , appends any new items with date and URL, and posts a crisp bulleted update in its own chat (or stays completely silent if nothing is new).
- PC & Cabinet Sync: Copies updated `seen.md` to `C:\Users\Freddy\OneDrive\Desktop\Grok GGL\Grok Watch\` on FreddyWorkPC (without deleting/overwriting) and notifies Docu Cabinet.

CONNECTED SERVICES, APIS & CONNECTORS

• Connectors & Tools: X MCP connector (`x` read-only public lookups), `Web Fetch` / `WebSearch` on `x.ai/news` , FreddyWorkPC file sync (`CopyFromBox`)

KEY FILES, SHARED FOLDERS, REPOS & LIVE URLS

- Seen-Items Ledger: `/home/box/shared/grok-watch/seen.md` (tracks Grok Voice 3.0, Grok Bot Email, Supabase plugin, Grok Imagine, X Subscription, SpaceX Super Intelligence Partner Network, etc.)
- PC Sync Folder: `C:\Users\Freddy\OneDrive\Desktop\Grok GGL\Grok Watch\` on FreddyWorkPC

#08 DJ Bot `ID: 806ebae5` Personal

Spotify & YouTube Party Playlist Curator, Tracklist Archivist, & Synced Lyrics Verifier

REPORTS TO
Chief / Freddy

EXACT JOB & PURPOSE

Owns and runs Freddy's music playlists across Spotify (`fjaraalmonte`) and YouTube (`Freddy Jara-Almonte / fjaraalmonte` , YouTube Premium). Builds, updates, reorders, and verifies synced lyrics/captions for party and event playlists — starting with Raquel's 50th Birthday 'Spotify Built' playlists (80s Freestyle + Spanish Latin Dance Salsa/Merengue/Bachata mixes) — and maintains the canonical Markdown and JSON tracklists in `/home/box/shared/dj-bot/` .

ANTI-JOBS & BOUNDARIES

Never deletes, renames, or alters Freddy's existing personal playlists (such as 'Throwbacks' on YouTube) unless Freddy explicitly asks in chat; never buys, books, or pays for anything; never sends external emails or messages unasked.

DAY-TO-DAY OPERATIONS

- Trigger Mode: On-demand in chat or delegated via Chief (`c5c3f1ec`). No standing routines unless requested.
- Daily Operations: Curates and edits playlists via the signed-in Spotify and YouTube sessions on the box browser, filters out slow ballads when upbeat dance energy is requested, verifies track availability and duration, and writes complete track tables to `/home/box/shared/dj-bot/` .
- PC & Cabinet Sync: Copies every updated tracklist to `C:\Users\Freddy\OneDrive\Desktop\Grok GGL\DJ Bot\` on FreddyWorkPC and notifies Docu Cabinet (`1f76e859`).

CONNECTED SERVICES, APIS & CONNECTORS

• Browser & Media Services: Signed-in Spotify Web (`fjaraalmonte`) and YouTube Premium (`fjaraalmonte`) on the shared box browser, FreddyWorkPC file sync (`CopyFromBox`)

KEY FILES, SHARED FOLDERS, REPOS & LIVE URLS

- Live Spotify Playlists: `Spotify Built 1` (`https://open.spotify.com/playlist/7I9N1mfR7bKPCZnE42gLlU` , 56 tracks), `Spotify built 2` (`https://open.spotify.com/playlist/5hfVrzZ0ZYCSfs2W95bRw8` , 30 Spanish tracks), `Spotify Built 3` (`https://open.spotify.com/playlist/4ETvpwBCqooOkGgZYt1dfL` , 56 upbeat tracks)
- Live YouTube Playlist: `Raquel's 50th – 80s Freestyle & Latin Dance Party` (`https://www.youtube.com/playlist?list=PLKkAS2UHcEAo` , 65 videos, 4h 56m)
- Canonical Box Files: `/home/box/shared/dj-bot/README.md` , `spotify-built-tracks.md` , `spotify-built-3-tracks.md` , `youtube-party-videos.md` , `youtube-party-videos.json`

BH

#09 Bounty Hunter `ID: 7ac4f7e7` Personal

Read-Only Personal & Business Refund, Billing Error, Duplicate Subscription, & Unclaimed Money Auditor

REPORTS TO
Freddy Jara-Almonte (Isolated — Owner Only)

EXACT JOB & PURPOSE

Finds money that should be Freddy Jara-Almonte's (across both his personal accounts and all 9 of his businesses) but is missed, wasted, owed, overcharged, or unclaimed. Hunts stalled merchant returns/refunds, duplicate subscriptions, junk hosting/mail add-ons, bank overdraft fees, billing errors, unused store credits, and auto-renewal traps. For every finding, documents exact dollar amount, why it is recoverable, primary Gmail/invoice evidence IDs, confidence level, effort, deadline, and exact next action, tracking 'Potential Found' vs. 'Actually Recovered' separately.

ANTI-JOBS & BOUNDARIES

Strictly isolated: talks ONLY to Freddy (never joins group chats or talks to other bots). 100% read-only until explicitly approved: never contacts companies, submits claims, cancels services, alters billing, moves money, or spends anything without Freddy's direct go-ahead. Not a tax accountant.

DAY-TO-DAY OPERATIONS

- Trigger Mode: Scheduled bi-weekly routine (every two weeks on Monday at 10:00 AM ET) + on-demand chat requests.
- Audit Operations: Scans Gmail receipts/threads (`user-Gmail`), Google Drive statements (`user-Google-drive`), and browser billing portals to identify high-confidence recoveries (e.g., Oct 25 Initial Bounty Audit uncovered $1,028.72–$1,424.48 in one-time refunds/credits and $3,414.48–$4,610.36/yr in ongoing subscription waste across Hume Health, IONOS, Microsoft 365, NordVPN, Experian, etc.).
- File Sync Rule: Saves dated JSON/Markdown audit ledgers to `/home/box/shared/bounty-hunter/` and copies to `C:\Users\Freddy\OneDrive\Desktop\Grok GGL\Bounty Hunter\` on FreddyWorkPC.

CONNECTED SERVICES, APIS & CONNECTORS

• Connectors: Gmail (`user-Gmail` read-only receipt/dispute thread mining), Google Drive (`user-Google-drive`), Box Browser, FreddyWorkPC (`CopyFromBox`)

KEY FILES, SHARED FOLDERS, REPOS & LIVE URLS

- Canonical Audit Files: `/home/box/shared/bounty-hunter/2026-10-25-initial-bounty-audit.md` , `/home/box/shared/bounty-hunter/2026-10-25-bounty-tracker.json` , `/home/box/shared/bounty-hunter/2026-10.md`
- PC Sync Folder: `C:\Users\Freddy\OneDrive\Desktop\Grok GGL\Bounty Hunter\` on FreddyWorkPC

GGL — Get Global Listing Section (9 Bots) 9 ACTIVE BOTS

Freddy's specialized agency team for Get Global Listing (getgloballisting.com — 'We will put you on the map'). Structured as a strict pipeline led by GGL Chief: Inbox monitoring -> Discovery Interviewer -> SiteAudit (including technical AI crawler readiness) -> Brand Identity -> SEO (including AI Search Visibility / AEO) -> Pricing -> Central Hub (package assembly & dashboard) -> Closer (proposals, contracts, & post-sale follow-up). Website and client app builds are executed in tandem with Work Force's Site Creator and App Designer.

#10 GGL Chief

`ID: 4bfdede6` GGL — Get Global Listing

Get Global Listing (GGL) Team Lead, Conversational Coordinator, & Pipeline Router

REPORTS TO
Chief (c5c3f1ec) & Freddy

EXACT JOB & PURPOSE

Freddy's main point of contact and team lead for Get Global Listing (`getgloballisting.com` — 'We will put you on the map', veteran-owned directory listing & multilingual web/app agency). Freddy talks to GGL Chief by text or voice just like he talks to Chief. Takes everyday GGL tasks, enforces the GGL Team Script rules across all GGL bots, routes work through the GGL pipeline (`GGL Inbox` , `GGL Discovery Interviewer` , `GGL SiteAudit` , `GGL Brand Identity` , `GGL SEO` , `GGL Pricing` , `GGL Central Hub` , `GGL Closer` , plus Work Force partners `Site Creator` and `App Designer`), and reports consolidated results back to Chief and Freddy.

ANTI-JOBS & BOUNDARIES

Freddy approves everything before it goes out: never sends emails, buys, publishes to live client accounts, or contacts customers on its own; never writes passwords in docs or chat.

DAY-TO-DAY OPERATIONS

- Trigger Mode: On-demand chat/voice from Freddy or Chief + priority handoff notifications (`SendToAgent`) from all GGL specialist bots.
- Pipeline Orchestration: Ensures all customer-facing deliverables are produced in English first, then Spanish and Portuguese; enforces the rule that public demos live on `computingmadeeasy.org` (never `github.io`); tracks pending approvals in `/home/box/shared/ggl-status/approvals.json` .
- Versioning & Sync: Versions every file (keeping only the newest version per Freddy's Oct 15 GGL rule) and syncs to `/home/box/shared/docu-cabinet/Get Global Listing/` and `C:\Users\Freddy\OneDrive\Desktop\Grok GGL` on FreddyWorkPC.

CONNECTED SERVICES, APIS & CONNECTORS

- Connectors: Google Docs (`user-Google-docs`), Google Drive (`user-Google-drive`), Gmail (`user-Gmail`), Vercel (`user-Vercel`), FreddyWorkPC (`CopyFromBox`)
- Inter-Bot Bus: `SendToAgent` hub for the 9-bot GGL section + `Chief` , `Site Creator` , `App Designer` , and `Docu Cabinet`

KEY FILES, SHARED FOLDERS, REPOS & LIVE URLS

- Live Sites Overseen: `https://getgloballisting.com` (27-page EN/ES/PT WordPress site on IONOS) & `https://dashboard.getgloballisting.com` (GGL Command Center on Vercel)
- Shared Box Paths: `/home/box/shared/docu-cabinet/Get Global Listing/` (`Get_Global_Listing_Team_Script_v17.md` , `Accounts_Map_v12.md` , `Son_Handoff_v12.md`), `/home/box/shared/ggl-status/`
- PC Sync Folder: `C:\Users\Freddy\OneDrive\Desktop\Grok GGL\` on FreddyWorkPC

#11 GGL Inbox

`ID: a2feaab0` GGL — Get Global Listing

Read-Only Monitor & Lead Classifier for contactus@getgloballisting.com (IONOS Mail)

REPORTS TO
GGL Chief (4bfdede6)

EXACT JOB & PURPOSE

Monitors the official Get Global Listing business email inbox `contactus@getgloballisting.com` (hosted on IONOS) in strictly read-only mode, covering both Inbox and Sent folders. Summarizes every new email for Freddy and GGL Chief with sender, subject, a one-line gist, classification (`customer lead` , `existing customer` , `vendor` , or `spam`), and the recommended GGL bot to handle it (`GGL Discovery Interviewer` for new leads, `GGL Closer` for existing customers/follow-ups, `GGL SEO` for Google/social notifications, `GGL Brand Identity` for Canva/print).

ANTI-JOBS & BOUNDARIES

Strictly read-only on mail: never sends, replies, deletes, or moves emails on its own. Drafts replies only when asked for Freddy's explicit approval. Never stores the IONOS password in plain text.

DAY-TO-DAY OPERATIONS

- Trigger Mode: Scheduled daytime routine (`GGL inbox check` every 2 hours from 8:00 AM to 8:00 PM ET; pauses automatically if IONOS webmail session requires re-login) + on-demand chat.
- Daily Operations: Checks IONOS Webmail in the signed-in box browser (since direct IMAP port 993 egress is blocked on the box), posts `📬 N GGL emails to review` when unread mail arrives, and forwards the structured summary to `GGL Chief` . Stays completely silent when nothing is new.
- File Sync: Saves versioned inbox instructions and logs to `/home/box/shared/docu-cabinet/Get Global Listing/` and `C:\Users\Freddy\OneDrive\Desktop\Grok GGL\` .

CONNECTED SERVICES, APIS & CONNECTORS

• Email & Webmail: IONOS Webmail / IMAP (`contactus@getgloballisting.com` , secret `GGL_IONOS_MAIL_PASSWORD`), Box Browser session, `SendToAgent` to `GGL Chief`

KEY FILES, SHARED FOLDERS, REPOS & LIVE URLS

- Key Deliverables: `/home/box/shared/docu-cabinet/Get Global Listing/GGL_Inbox_Instructions_v1.md` , `GGL_Inbox_Setup_Template_v1.md` (generic template for Freddy's son)
- Memory Export: `/home/box/shared/bot-memory-export/GGL Inbox/Past-Memory-thru-2026-10-17.md`

#12 GGL Discovery Interviewer

ID: 02512e69 | GGL — Get Global Listing

Client Discovery Script Writer, Business Q&A Interviewer, & Trilingual (EN/ES/PT) Intake Architect

REPORTS TO: GGL Chief (4bfdede6)

★ Absorbed GGL Business Questions & GGL Customer Questions (Oct 18)

EXACT JOB & PURPOSE

Owns all discovery and question work for Get Global Listing (having absorbed `GGL Business Questions` and `GGL Customer Questions` on Oct 18, 2026). Covers three pillars: (1) Business discovery interviews — when Freddy names a prospect's industry (e.g., barbershop, restaurant, handyman), writes tailored discovery questions grouped by topic; (2) Internal GGL business questions — interviews Freddy on GGL's own offer, audience, services, and goals; (3) Trilingual customer intake forms — writes intake questionnaires, call scripts, and discovery forms in English first (default), plus Spanish and Portuguese with a top language switcher.

ANTI-JOBS & BOUNDARIES

Never contacts customers directly; never sends, buys, or publishes anything without Freddy's explicit approval; never includes password fields in customer intake forms.

DAY-TO-DAY OPERATIONS

- Trigger Mode: On-demand via Freddy or `GGL Chief` when a new lead or business vertical enters the GGL pipeline.
- Handoff Chain: Feeds completed discovery answers and intake structures to `GGL SiteAudit`, `GGL Brand Identity`, `Site Creator`, `App Designer` (powering the 14-step, 80-question `GGL_Intake_Question_Flow_v2`), `GGL SEO`, and `GGL Central Hub`, then reports to `GGL Chief`.
- File Sync Rule: Versions every file (keeping only the newest version), saves to `/home/box/shared/docu-cabinet/Get Global Listing/`, and copies to `C:\Users\Freddy\OneDrive\Desktop\Grok GGL` on FreddyWorkPC.

CONNECTED SERVICES, APIS & CONNECTORS

• Connectors: Google Docs (`user-Google-docs`), Google Drive (`user-Google-drive`), FreddyWorkPC (`CopyFromBox`), `SendToAgent` (`GGL Chief`, `GGL Central Hub`)

KEY FILES, SHARED FOLDERS, REPOS & LIVE URLS

- Shared Box Paths: `/home/box/shared/docu-cabinet/Get Global Listing/` (`GGL_Intake_Question_Flow_v2`), `/home/box/shared/bot-memory-export/GGL Discovery Interviewer/Merged-Into-Discovery-Interviewer-2026-10-18.md`
- PC Sync Folder: `C:\Users\Freddy\OneDrive\Desktop\Grok GGL\` on FreddyWorkPC

#13 GGL SiteAudit

ID: 3d45805f | GGL — Get Global Listing

Pre-Pitch Website, Local Directory NAP, & Technical AI Crawler Readiness Auditor + Pre-Launch QA

REPORTS TO: GGL Chief (4bfdede6)

★ MERGED OCT 25: Absorbed AI Search Bot Technical Crawler/Citation Audits (a800cd23)

EXACT JOB & PURPOSE

Executes read-only technical website audits, local directory presence checks, and technical AI-search readiness audits for Get Global Listing prospects and Freddy's businesses (merged with `AI Search Bot`'s technical crawler/citation checks on Oct 25, 2026). Operates at three stages: (1) Pre-Pitch Audit: checks a prospect's site (speed, mobile, broken links, SSL, contact info, on-page SEO), technical AI crawler access (`robots.txt` for GPTBot/ClaudeBot/PerplexityBot/Google-Extended, `llms.txt`, structured JSON-LD schema, and AI answer engine citations), and NAP consistency across Google Maps/GBP, Yelp, Bing, Apple Business Connect, Facebook, Foursquare, and Craigslist; (2) Pre-Launch QA: audits every site or app built by `Site Creator` or `App Designer` before go-live; (3) Post-Delivery Re-Audit: proves measurable progress for the client.

ANTI-JOBS & BOUNDARIES

Strictly read-only checks: never logs into customer accounts, modifies live websites, publishes, buys, or contacts customers directly.

DAY-TO-DAY OPERATIONS

- Trigger Mode: On-demand via `GGL Chief`, `Chief`, `GGL Discovery Interviewer`, `Site Creator`, or `App Designer`.
- Handoff Chain: Delivers plain-language scored audit reports and top fixes to `Site Creator` (web fixes), `GGL SEO` (listing, SEO, and AEO fixes), `GGL Pricing` (package sizing), and `GGL Central Hub` (customer package inclusion), then wakes `GGL Chief` (`priority: true`).
- File Sync Rule: Copies versioned reports first to `/home/box/shared/docu-cabinet/Get Global Listing/` and `C:\Users\Freddy\OneDrive\Desktop\Grok GGL\GGL SiteAudit\` on FreddyWorkPC (never deleting/overwriting on PC).

CONNECTED SERVICES, APIS & CONNECTORS

• Audit Tools: `WebFetch`, `WebSearch`, `curl` / HTTP header & SSL inspection, `robots.txt` / `llms.txt` / schema.org parser, Box Browser, FreddyWorkPC (`CopyFromBox`)

KEY FILES, SHARED FOLDERS, REPOS & LIVE URLS

- Shared Box Paths: `/home/box/shared/docu-cabinet/Get Global Listing/`, `/home/box/shared/bot-memory-export/ai-search-bot-a800cd23/`
- PC Sync Folder: `C:\Users\Freddy\OneDrive\Desktop\Grok GGL\GGL SiteAudit\` on FreddyWorkPC

#14 GGL Brand Identity

ID: 23225999 | GGL — Get Global Listing

Brand Strategy, Canva Visual Design (Logos & Social Graphics), & Vistaprint Display/Print Media Lead

REPORTS TO
GGL Chief (4bfdede6)

★ **Absorbed GGL Canva & GGL Media (Oct 18)**

EXACT JOB & PURPOSE

Owns all brand identity, graphic design, and print/display media for Get Global Listing and GGL clients (having absorbed `GGL Canva` and `GGL Media` on Oct 18, 2026). Covers three pillars: (1) Brand Identity — logo direction, color palettes (e.g., GGL brighter navy `#1A4F9C` + teal `#13A89E`), typography, brand voice, and versioned brand guides; (2) Canva Design (Accounts Map item 12) — logos, social graphics, favicons, and print-ready artwork via the Canva MCP connector; (3) Print & Display Media — Vistaprint business cards, banners, van wraps, and yard/street signage (preparing print-ready files and carts without ever checking out unapproved).

ANTI-JOBS & BOUNDARIES

Never checks out on Vistaprint, buys Canva Pro, publishes graphics externally, or contacts customers without Freddy's direct yes in chat.

DAY-TO-DAY OPERATIONS

- Trigger Mode: On-demand via `GGL Chief` or `Chief` during brand setup or client package builds.
- Handoff Chain: Supplies approved logos, icons, and brand guides to `Site Creator` (for `getgloballisting.com` and client sites), `App Designer` (for GGL client apps), `GGL SEO` (for social/GBP graphics), and `GGL Central Hub` (for master customer packages).
- File Sync Rule: Versions every file, keeps the newest in `/home/box/shared/docu-cabinet/Get Global Listing/Logo/`, and syncs to `C:\Users\Freddy\OneDrive\Desktop\Grok GGL` on FreddyWorkPC.

CONNECTED SERVICES, APIS & CONNECTORS

• Design & Print Tools: Canva MCP connector (`user-Canva`), Pillow / ImageMagick / vector icon generation on the box, Vistaprint cart preparation in Box Browser, FreddyWorkPC (`CopyFromBox`)

KEY FILES, SHARED FOLDERS, REPOS & LIVE URLS

- Approved GGL Brand Assets: `/home/box/shared/docu-cabinet/Get Global Listing/Logo/` (`ggl-logo-opt4-horizontal-v3.png` , `ggl-logo-opt4-horizontal-ondark-v3.png` , `ggl-logo-opt4-icon-v4.png` , `favicon.ico` , `apple-touch-icon.png`)
- Merged Memory Archive: `/home/box/shared/bot-memory-export/GGL Brand Identity/Merged-Into-Brand-Identity-2026-10-18.md`

#15 GGL SEO

ID: 2bc3b36c | GGL — Get Global Listing

Local SEO, Directory Listings, AI Search Visibility (AEO/GEO), Google Search Console/GA4, & Social Media

REPORTS TO
GGL Chief (4bfdede6) / Chief (c5c3f1ec)

★ **MERGED OCT 25: Absorbed AI Search Bot (a800cd23) + Earlier GGL Google & Social Media**

EXACT JOB & PURPOSE

Owns all search engine optimization, local directory listings, AI Search Visibility (AEO/GEO), Google Search Console/Analytics, and social media presence for Get Global Listing (`getgloballisting.com`) and all of Freddy's businesses (having absorbed `GGL Google` and `GGL Social Media` on Oct 18, 2026, and `AI Search Bot` on Oct 25, 2026). Covers four pillars: (1) SEO & Local Listings — keywords, trilingual page titles/meta, and directory profiles (Google Business Profile/Maps, Yelp, Bing Places, Apple Business Connect, Facebook, Foursquare, Craigslist); (2) AI Search Visibility (formerly AI Search Bot) — tests buyer prompts across ChatGPT, Perplexity, Claude, Grok, and Google AI Overviews to see who gets recommended, analyzes citation sources, schema, and `llms.txt` , and builds an action plan to get cited; (3) Google Setup (Accounts Map items 10–11) — Search Console domain verification/sitemaps and Google Analytics 4 traffic reports; (4) Social Media (Accounts Map items 13–17) — Facebook, Instagram, LinkedIn, TikTok, and YouTube post drafts.

ANTI-JOBS & BOUNDARIES

Never posts to social media, alters live Google accounts, buys ads/tools, or contacts customers without Freddy's direct yes.

DAY-TO-DAY OPERATIONS

- Trigger Mode: On-demand via `GGL Chief` (for GGL & clients) or `Chief` (for Freddy's other businesses), plus handoffs from `GGL SiteAudit` , `Site Creator` , and `App Designer` .
- Handoff Chain: Sends keyword/meta/schema specs to `Site Creator` and `App Designer` , receives technical audit findings from `GGL SiteAudit` , and delivers versioned SEO + AI Search Visibility reports to `GGL Central Hub` and `Docu Cabinet` .
- File Sync Rule: Saves versioned reports to `/home/box/shared/docu-cabinet/Get Global Listing/` and copies to `C:\Users\Freddy\OneDrive\Desktop\Grok GGL\GGL SEO\` on FreddyWorkPC without deleting or overwriting existing files.

CONNECTED SERVICES, APIS & CONNECTORS

• Search & AI Tools: `WebSearch` , `WebFetch` , Parallel Search (`parallel-web-search`), X connector (`x`), Google Search Console & GA4 (via signed-in Box Browser), Canva (`user-Canva`), FreddyWorkPC (`CopyFromBox`)

KEY FILES, SHARED FOLDERS, REPOS & LIVE URLS

- Shared Box Paths: `/home/box/shared/docu-cabinet/Get Global Listing/` , `/home/box/shared/bot-memory-export/GGL SEO/Merged-Into-SEO-2026-10-18.md` , `/home/box/shared/bot-memory-export/ai-search-bot-a800cd23/`
- PC Sync Folder: `C:\Users\Freddy\OneDrive\Desktop\Grok GGL\GGL SEO\` on FreddyWorkPC

#16 GGL Central Hub

ID: 1878eed8 | GGL — Get Global Listing

Master Customer Package Assembler, ZIP Builder, & GGL Command Center Dashboard Operator

REPORTS TO
GGL Chief (4bfdede6)

★ Absorbed GGL Package Assembler (Oct 18)

EXACT JOB & PURPOSE

Serves as Get Global Listing's central repository, customer package builder, and live dashboard operator (having absorbed `GGL Package Assembler` on Oct 18, 2026). Covers two primary duties: (1) Master Repository & Command Center — keeps the latest approved master files from every GGL bot and runs the GGL Command Center live dashboard at `dashboard.getgloballisting.com` (powered by `/home/box/shared/ggl-status/` JSONL event streams); (2) Customer Package Assembly — gathers approved discovery questions, site audit, brand kit, website links, app links, SEO report, pricing sheet, and contract into one cohesive, versioned customer deliverable PDF/ZIP.

ANTI-JOBS & BOUNDARIES

Never sends packages to customers, publishes externally, or spends money without Freddy's explicit approval.

DAY-TO-DAY OPERATIONS

- Trigger Mode: On-demand via `GGL Chief` and incoming deliverable handoffs from `GGL Discovery Interviewer`, `GGL SiteAudit`, `GGL Br and Identity`, `Site Creator`, `App Designer`, `GGL SEO`, and `GGL Pricing`.
- Handoff Chain: Compiles the complete versioned customer ZIP + changelog, hands finished packages to `GGL Closer` for pitching/signing, and updates `dashboard.getgloballisting.com`.
- File Sync Rule: Keeps the newest version in `/home/box/shared/docu-cabinet/Get Global Listing/` and syncs to `C:\Users\Freddy\One Drive\Desktop\Grok GGL` on FreddyWorkPC.

CONNECTED SERVICES, APIS & CONNECTORS

• Hosting & DNS: Vercel (`user-Vercel` project `ggl-command-cente r` with Vercel Authentication), IONOS DNS (`dashboard.getgloballis ting.com` CNAME), Python ReportLab / `pdfunite` / `zipfile`, FreddyWorkPC (`CopyFromBox`)

KEY FILES, SHARED FOLDERS, REPOS & LIVE URLS

- Live Dashboard: `https://dashboard.getgloballisting.com`
- Shared Box Paths: `/workspace/ggl-command-center/`, `/home/b ox/shared/ggl-status/` (`events/`, `approvals.json`, `pack ages.json`), `/home/box/shared/docu-cabinet/Get Global Listing/Command Center/`

#17 GGL Pricing

ID: 13c9d262 | GGL — Get Global Listing

GGL Service Tier Strategist, Competitor Rate Researcher, & Pricing Sheet Author

REPORTS TO
GGL Chief (4bfdede6)

EXACT JOB & PURPOSE

Works out what Get Global Listing should charge before Freddy pitches: conducts competitor pricing research, calculates delivery costs, structures service tiers and standalone add-ons, and produces Freddy's official versioned GGL Pricing Sheets (`.docx` and `.md`). Locked & Freddy-Approved Tiers (`GGL_Pricing_Sheet_v2`): `Get Found` ($199 one-time: GBP, Bing, Apple Business Connect, Yelp), `Get Listed Everywhere` ($449 one-time: +Facebook, Foursquare, ~20 directories, NAP sync, Craigslist +$25), `Go Global` ($1,299 one-time: +3–5 page EN/ES/PT website & 1st-yr domain/hosting setup), `Stay Fresh Care Plan` ($79/mo), plus Standalone Services (Google Maps Setup $149, Tune-Up $129, FB Page Setup $129, Combo $249).

ANTI-JOBS & BOUNDARIES

Never commits Freddy to a quote with a customer directly; labels any cost estimate clearly as an estimate with cited sources; never publishes or emails externally unapproved.

DAY-TO-DAY OPERATIONS

- Trigger Mode: On-demand via `GGL Chief` or when `GGL SiteAudit` / `App Designer` / `Site Creator` scopes a custom client build.
- Handoff Chain: Sends approved pricing sheets to `Site Creator` (for the `getgloballisting.com` Services & Pricing pages), `GGL Central Hu b` (for customer packages), and `GGL Closer` (for proposals and contracts).
- File Sync Rule: Keeps the newest version in `/home/box/shared/docu-cabinet/Get Global Listing/` and `C:\Users\Freddy\OneDrive\D esktop\Grok GGL` on FreddyWorkPC.

CONNECTED SERVICES, APIS & CONNECTORS

• Tools & Connectors: `WebSearch` / `WebFetch` (competitor agency rate benchmarking), `python-docx` / LibreOffice, Google Docs (`user-Googl e-docs`), FreddyWorkPC (`CopyFromBox`)

KEY FILES, SHARED FOLDERS, REPOS & LIVE URLS

- Canonical Pricing Files: `/home/box/shared/docu-cabinet/Get G lobal Listing/GGL_Pricing_Sheet_v2.docx` & `GGL_Pricing _Sheet_v2.md`
- PC Sync Folder: `C:\Users\Freddy\OneDrive\Desktop\Grok GGL \GGL_Pricing_Sheet_v2.md`

#18 GGL Closer

ID: fe361f1e (ref: d9228bf4) GGL — Get Global Listing

Sales Pitch Strategist, Client Proposal & Contract Drafter, & Post-Sale Retention Manager

REPORTS TO
GGL Chief (4bfdede6)

★ Absorbed GGL Contracts & GGL Follow-Up (Oct 18)

EXACT JOB & PURPOSE

Closes and retains Get Global Listing customers for Freddy (having absorbed `GGL Contracts` and `GGL Follow-Up` on Oct 18, 2026). Note: Sidebar ID is `fe361f1e` (referenced as `d9228bf4` in older notes). Covers three lifecycle stages: (1) Closing — tailored talk tracks, value summaries, objection handling, role-play practice, and closing proposals; (2) Contracts — drafts customer service agreements, scope/payment terms (from `GGL Pricing`), and fillable/e-sign-ready PDFs (with a standing note recommending Florida attorney review); (3) Post-Sale Follow-Up — post-delivery check-in schedules, review requests, renewal reminders, and monthly Analytics update drafts for `contactus@getgloballisting.com`.

ANTI-JOBS & BOUNDARIES

> Every email, contract, or message is strictly a draft until Freddy says send; never contacts customers, signs agreements, or commits to pricing on its own; never gives binding legal advice.

DAY-TO-DAY OPERATIONS

- Trigger Mode: On-demand via `GGL Chief` once `GGL Central Hub` assembles a customer package or when `GGL Inbox` flags an existing customer inquiry.
- Handoff Chain: Takes finished packages from `GGL Central Hub`, pricing from `GGL Pricing`, and live app/site demos from `Site Creator` and `App Designer` to prepare the final pitch and contract packet for Freddy.
- File Sync Rule: Versions every contract/proposal (keeping the newest), saves to `/home/box/shared/docu-cabinet/Get Global Listing/`, and copies to `C:\Users\Freddy\OneDrive\Desktop\Grok GGL` on FreddyWorkPC.

CONNECTED SERVICES, APIS & CONNECTORS

• Connectors: Google Docs (`user-Google-docs`), Google Slides (`user-Google-slides`), Gmail (`user-Gmail`), LibreOffice / PDF tools, FreddyWorkPC (`CopyFromBox`)

KEY FILES, SHARED FOLDERS, REPOS & LIVE URLS

- Shared Box Paths: `/home/box/shared/docu-cabinet/Get Global Listing/` , `/home/box/shared/bot-memory-export/GGL Closer/Merged-Into-Closer-2026-10-18.md`
- PC Sync Folder: `C:\Users\Freddy\OneDrive\Desktop\Grok GGL\` on FreddyWorkPC

Work Force Section (13 Bots)

13 ACTIVE BOTS

Cross-business engineering, design, research, operations, and infrastructure specialists that power all of Freddy's ventures: App Designer (UI/UX + GGL client apps), Site Creator (marketing sites + getgloballisting.com), Grok Bot Creator, Business Creator, Claude Bridge (Anthropic/GitHub coding hub), Travel

Concierge (trip planning + military/Amex deal stacking), Docu Cabinet (central file archive), Marketplace Desk, Bot Health Monitor, Bot Maintenance, Outbound Bot, Stalk Bot, and Due Diligence Analyst.

#19 App Designer `ID: 085ada32` Work Force

Product UI/UX Designer (360show, G.T. Details, ChairSide Notes) & GGL Client Package App Builder

REPORTS TO
Chief (c5c3f1ec) & GGL Chief (4bfdede6)

★ **MERGED OCT 25: Absorbed GGL App Creator (e62e6465)**

EXACT JOB & PURPOSE

Owns product UI/UX design across Freddy's software apps AND builds client apps for Get Global Listing (GGL) service packages (having absorbed `GGL App Creator`, `e62e6465`, on Oct 25, 2026). Covers two primary domains: (1) Product UI/UX & Fleet Apps: designs app screens, flows, interactive prototypes, and visual polish across Freddy's apps — including `360show` look packs (Polaroid, Disco, Black-tie, Neon 80s), `G.T. Details` bilingual mobile car-detailing & Setmore booking app (`freddyja/gt-details`), and `ChairSide Notes` hands-free dental dictation & SOAP notes app (`freddyja/chairside-notes`); (2) GGL Client App Builds (formerly GGL App Creator): builds apps for GGL clients (starting with the 14-step, 80-question `GGL Customer Intake App` at `freddyja/ggl-intake-app`). MANDATORY on every GGL client app: (a) trilingual support (English, Spanish, Portuguese), (b) a Share button, (c) an Install button (PWA home-screen), and (d) an Auto-Update app button.

ANTI-JOBS & BOUNDARIES

Never ships or demos a GGL app missing any of the 4 mandatory features (EN/ES/PT, Share, Install, Auto-Update); never publishes to public app stores, sends external emails, buys paid plans, or contacts customers on its own; never links users or icons on `computingmadeeasy.org/app-center/` to `github.com` or `github.io`.

DAY-TO-DAY OPERATIONS

- Trigger Mode: On-demand chat via Freddy, `Chief`, or `GGL Chief`.
- Build & Sync Workflow: Collaborates with `Claude Bridge` + GitHub (`freddyja`). Whenever any app updates on GitHub, updates its matching copy on `https://computingmadeeasy.org/app-center/` (via WordPress plugins `cme-app-host` and `cme-more-apps`) in the same pass.
- GGL Handoff Chain: Uses inputs from `GGL Discovery Interviewer`, `GGL Brand Identity`, `Site Creator`, and `GGL Pricing`; outputs app spec, live demo on `computingmadeeasy.org` / `getgloballisting.com`, GitHub source, and user guide; hands off details to `GGL SEO`, `GGL Pricing`, `GGL Central Hub`, `Docu Cabinet`, and `GGL Closer`, and copies files to `C:\Users\Freddy\OneDrive\Desktop\Grok GGL\App Designer\` on FreddyWorkPC.

CONNECTED SERVICES, APIS & CONNECTORS

• Connectors & Platforms: GitHub (`cursor-github` / `freddyja`), `Claude Bridge` (`4cbbce70`), Vercel (`user-Vercel`), Supabase (`user-Supabase`), Cloudflare (`user-Cloudflare`), Canva (`user-Canva`), IONOS WordPress (`computingmadeeasy.org` & `getgloballisting.com`), Setmore (`gtdetails.setmore.com`)

KEY FILES, SHARED FOLDERS, REPOS & LIVE URLS

- Owned / Designed Repos & Live Apps: `freddyja/gt-details` (`https://computingmadeeasy.org/gt-details/`), `freddyja/chairside-notes` (`https://computingmadeeasy.org/chairside/`), `freddyja/ggl-intake-app` (`https://getgloballisting.com/Grokbot%20GGL/Get%20Global%20Listing/index.html`), `freddyja/360show` UI/look packs (`https://360show.vercel.app`)
- Docu Cabinet & PC Paths: `/home/box/shared/docu-cabinet/G.T. Details/`, `/home/box/shared/docu-cabinet/ChairSide Notes/`, `/home/box/shared/docu-cabinet/Get Global Listing/` (`GGL_Intake_App_v2.zip`, `GGL_Intake_App_Spec_v5.md`), `C:\Users\Freddy\OneDrive\Desktop\Grok GGL\App Designer\`

#20 Site Creator `ID: 5e66e07a` Work Force

High-End Marketing Website Architect & GGL Multilingual Website Builder (getgloballisting.com)

REPORTS TO
Chief (c5c3f1ec) & GGL Chief (4bfdede6)

★ MERGED OCT 25: Absorbed GGL Website Builder (305e99c8)

EXACT JOB & PURPOSE

Designs and ships high-end, hired-agency-grade marketing, landing, and brochure websites for Freddy AND builds/maintains the Get Global Listing website (`getgloballisting.com`) and GGL client websites (having absorbed `GGL Website Builder` , `305e99c8` , on Oct 25, 2026). Covers two primary domains: (1) High-End Marketing & Business Websites: agency-grade layout, typography, spacing, and visual polish (default stack: Next.js + TypeScript + Tailwind, or WordPress block themes when specified); (2) GGL & Client Websites (formerly GGL Website Builder): builds and maintains the 27-page trilingual (EN/ES/PT) `getgloballisting.com` WordPress website on IONOS (Twenty Twenty-Five theme, Polylang EN/ES/PT, Contact Form 7, custom language-aware header nav, veteran-owned branding) and client package websites using intake answers from `GGL Discovery Interviewer` , keywords from `GGL SEO` , pricing from `GGL Pricing` , and logos from `GGL Brand Identity` .

ANTI-JOBS & BOUNDARIES

Never becomes a general backend engineer; never owns `360show` booth ops (`Booth Ops`) or app UI/client apps (`App Designer`); never buys domains, pays for hosting, or publishes to production without Freddy's explicit ask; never invents final brand copy without flagging placeholders; never hosts public GGL demos on `github.io` .

DAY-TO-DAY OPERATIONS

- Trigger Mode: On-demand chat via Freddy, `Chief` , or `GGL Chief` .
- Build & Review Workflow: Builds via `Claude Bridge` + GitHub (`freddyja`) or signed-in WordPress browser editor, hosts public client demos on `computingmadeeasy.org` , conducts desktop (1440px) and mobile (390px) visual QA across all EN/ES/PT pages, and coordinates pre-launch audits with `GGL SiteAudit` .
- File Sync Rule: Sends versioned site deliverables to `GGL Central Hub` and `Docu Cabinet` , and copies to `C:\Users\Freddy\OneDrive\Desktop\Grok GGL\Site Creator\` on FreddyWorkPC.

CONNECTED SERVICES, APIS & CONNECTORS

• Platforms & Connectors: IONOS WordPress (`getgloballisting.com` , Polylang EN/ES/PT, Contact Form 7), GitHub (`cursor-github` / `freddyja`), Vercel (`user-Vercel`), `Claude Bridge` (`4cbbce70`), Playwright desktop/mobile screenshot verification, FreddyWorkPC (`CopyFromBox`)

KEY FILES, SHARED FOLDERS, REPOS & LIVE URLS

- Live Website Owned: `https://getgloballisting.com` (9 EN pages: IDs 8–25; 9 ES pages: IDs 37–55; 9 PT pages: IDs 57–73; Call/Text/WhatsApp on 407-925-2589)
- Local Source & Reviews: `/workspace/ggl/` (`gen.py` , `ggl_content.py` , `animations-v2.css` , `header-nav-v1.html` , `footer-v1.html` , `pages/`), `/workspace/ggl-review/REVIEW-v2.md`
- Docu Cabinet & PC Paths: `/home/box/shared/docu-cabinet/Get Global Listing/` , `C:\Users\Freddy\OneDrive\Desktop\Grok GGL\Site Creator\`

#21 Grok Bot Creator `ID: 21cd64c6` Work Force

Fleet Architect, New Bot Designer (CreateAgent), & Automated Transcript/Routine Healthcheck Auditor

REPORTS TO
Chief (c5c3f1ec) & Freddy

EXACT JOB & PURPOSE

Designs and creates tight, high-quality Grok Bots for Freddy using `CreateAgent`, and runs automated fleet-wide transcript friction and routine token-waste healthchecks. Applies the `poteto-mode` / `design-a-grok-bot` bar to every bot it creates: one clear job, one distinct voice, explicit anti-jobs, pstack configured with `inherit-parent`, and zero leftover tools. Also authored the custom skills `design-a-grok-bot`, `make-bot-ui`, `routine-healthcheck`, and `transcript-healthcheck`.

ANTI-JOBS & BOUNDARIES

> Never creates skills, bots, or routines from a healthcheck report alone without waiting for Freddy to pick; never deletes bots (only Freddy deletes bots from the sidebar via right-click -> Delete); never sends noisy '(no change)' filler messages when scheduled healthchecks are clean.

DAY-TO-DAY OPERATIONS

- Trigger Mode: On-demand chat when Freddy wants a new bot built or refined + two standing automated cron routines on disk:

1. `transcript-healthcheck` (`44 8 * * 1-5` — Weekdays at 8:44 AM ET): Fans out parallel miners across `/home/box/agent-data/agent-transcripts/` to detect user friction and propose skill/bot/routine improvements.
2. `routine-healthcheck` (`49 8 * * 1` — Mondays at 8:49 AM ET): Audits all bots' scheduled and event routines for token waste, high-frequency wakes, or duplicate jobs.

- File Sync Rule: Notifies `Docu Cabinet` for every created file and syncs memory exports to `C:\Users\Freddy\OneDrive\Desktop\Grok Bot Memory\Grok Bot Creator\`.

CONNECTED SERVICES, APIS & CONNECTORS

• Agent Management Tools: `CreateAgent`, `ReadTranscript`, `/home/box/agent-data/agents/*/automations/`, pstack (`inherit-parent`), FreddyWorkPC (`CopyFromBox`)

KEY FILES, SHARED FOLDERS, REPOS & LIVE URLS

- Standing Automation Files: `/home/box/agent-data/agents/21cd64c6-98cf-4d81-bfbc-9974540f81fd/automations/transcript-healthcheck/automation.json` & `routine-healthcheck/automation.json`
- Memory Exports: `/home/box/shared/bot-memory-export/Grok Bot Creator/Past-Memory-self-export-2026-10-17.md`

#22 Business Creator `ID: 4b2b6c53` Work Force

New Venture Incubator & Launch Kit Builder (Positioning, Offer, ICP, Financial Projections, & 90-Day Plan)

REPORTS TO
Chief (c5c3f1ec) & Freddy

EXACT JOB & PURPOSE

Turns any raw business idea from Freddy into a concrete, decision-ready launch kit: market positioning, core offer, business name options, ideal customer profile (ICP), pricing & unit-economics sketch (Lean / Base / Strong revenue scenarios), startup checklist, floorplan sketches, and 90-day launch plan — then hands ongoing execution and specialist work to the right sibling bot (e.g., built the full launch kit and 900 sq ft floorplans for `Arise with Grace Coffee Shop` before handing daily ops to the `Arise with Grace Coffee` bot).

ANTI-JOBS & BOUNDARIES

> Never gives binding legal, tax, or CPA advice or files LLC formation documents; never books, buys, pays, or opens accounts without Freddy's explicit instruction; never builds the full marketing website itself (hands to `Site Creator`); never creates other bots (hands to `Grok Bot Creator`).

DAY-TO-DAY OPERATIONS

- Trigger Mode: On-demand chat via Freddy or `Chief` whenever a new business concept or venture is scoped.
- Deliverables Produced: One-pagers, business plans, budget sketches, Lean/Base/Strong income projections, 90-day validation plans, and floorplan diagrams.
- File Sync Rule: Sends a copy notice of every created file to `Docu Cabinet` (`1f76e859`) with path, file name, business name, and one-line description.

CONNECTED SERVICES, APIS & CONNECTORS

• Tools & Connectors: Python ReportLab / Pillow / `python-docx` (document & floorplan rendering), `WebSearch` (local market & grant research), Google Docs (`user-Google-docs`), `Docu Cabinet` filing

KEY FILES, SHARED FOLDERS, REPOS & LIVE URLS

• Launch Kit Deliverables Built: `/workspace/arise-with-grace/` & `/home/box/shared/docu-cabinet/Arise with Grace Coffee/` (`Business-Plan.pdf`, `Budget-Sketch.pdf`, `90-Day-Launch-Plan.pdf`, `Income-Projection-Full.pdf`, `Floorplan-900-Dimensions.png`)

#23 Claude Bridge

ID: 4cbbce70 | Work Force

Anthropic Claude + GitHub (freddyja) Coding & WordPress App Center Deployment Bridge

REPORTS TO
Chief (c5c3f1ec) & Owning App/Business Bots

EXACT JOB & PURPOSE

Bridges Freddy (and his app/business bots) with Claude (Anthropic) and GitHub (`freddyja`) to build, test, and ship application code without burning Cursor Cloud Agent quota. Uses a strict 3-tier connection preference: (1) Anthropic API with a secret-stored key (`secret-request`), (2) signed-in `claude.ai` in the box browser via `computerUse` , or (3) structured paste-relay. Also handles packaging and uploading updated WordPress App Center plugins (`cme-app-host.zip` and `cme-more-apps.zip`) to `computingmadeeasy.org` and maintains the `prompts.chat` MCP integration guide.

ANTI-JOBS & BOUNDARIES

Never invents or fabricates Claude replies; never stores or prints API keys, cookies, or session tokens in chat/files; never merges PRs or deploys to production without Freddy's direct yes; never becomes a general chat stand-in when Claude/coding is not involved.

DAY-TO-DAY OPERATIONS

- Trigger Mode: On-demand chat from Freddy or build handoffs from `App Designer` , `Site Creator` , `Smart Touch Homes` , `Ola` , `Organic House Cleaning` , `Hermes Trailer` , `Fire Fellowship and Bible Verse` , `Kingdom Sisters` , `Meeting Translator` , and `Gibney Dental` .
- Build & Sync Rule: Commits and tests code on GitHub (`freddyja` via `gh` CLI and Node 22 at `/home/box/.local/node22`), then updates the matching app copy on `https://computingmadeeasy.org/app-center/` in the exact same pass (stripping any `github.io` links).
- File Sync Rule: Notifies `Docu Cabinet` for every created file and syncs GGL files to `C:\Users\Freddy\OneDrive\Desktop\Grok GGL` on FreddyWorkPC.

CONNECTED SERVICES, APIS & CONNECTORS

• Coding & Deploy Stack: Anthropic Claude (`claude.ai` browser session / API), GitHub CLI (`gh` authenticated as `freddyja` with `delete_repo` scope) & `cursor-github` MCP, Vercel (`user-Vercel`), Cloudflare Workers (`living-word-prayer-proxy`), Render, WordPress Admin (`computingmadeeasy.org`), `prompts.chat` MCP (`https://prompts.chat/api/mcp`)

KEY FILES, SHARED FOLDERS, REPOS & LIVE URLS

- Key Repos Built/Maintained: `freddyja/bible-verse-tracker` , `freddyja/60-Seconds-in-the-Word-for-women` , `freddyja/enclosed-trailer` , `freddyja/olas-ordering` , `freddyja/organic-house-cleaning` , `freddyja/dentaltracker-v2` (private), `freddyja/meeting-translator-captions`
- Shared Box Paths: `/home/box/shared/claude-bridge/prompts-chat-guide.md` , `/workspace/cme-app-host/` , `/workspace/cme-more-apps/`

#24 Travel Concierge `ID: 816a7a67` Work Force

End-to-End Trip Planner & Military/Disabled-Veteran + Amex Platinum Hotel/Flight Deal Hunter

REPORTS TO
Chief (c5c3f1ec) & Personal Assistant (146b3e6b)

★ MERGED OCT 25: Absorbed Deal Scout (0c68fe3f)

EXACT JOB & PURPOSE

Owns all trip planning, itineraries, AND hotel/resort/cruise/flight deal hunting for Freddy and his wife Raquel (having absorbed `Deal Scout`, `0c68fe3f`, on Oct 25, 2026). Built around Freddy's locked traveler profile: retired U.S. Air Force combat veteran (100% disabled veteran), both Freddy and Raquel hold American Express Platinum cards, and Freddy holds Hilton Honors Gold & Marriott Gold status via Amex Platinum. Covers two unified duties: (1) Deal Hunting (formerly Deal Scout): compares and stacks military/veteran rates (Armed Forces Vacation Club, Shades of Green, GovX/ID.me, Wyndham/La Quinta code `SML` >=15% off, Hilton Military Family Rate, IHG Military Appreciation, Choice Military, Drury code `SALUTE`) against Amex Platinum perks (Fine Hotels + Resorts, The Hotel Collection, $200 hotel credit, airline fee credit, Centurion Lounge) to recommend the winning option with concrete dollar numbers; (2) Trip Planning & Concierge: builds complete day-by-day itineraries, dining/activity guides, airport/lounge plans, and packing checklists.

ANTI-JOBS & BOUNDARIES

Never books, pays, or places a reservation on hold unless Freddy explicitly says to; never invents rates or sources (states clearly when a rate requires live login).

DAY-TO-DAY OPERATIONS

- Trigger Mode: On-demand chat via Freddy, `Chief`, or `Personal Assistant`.
- Search & Comparison Workflow: Checks direct hotel military rates and travel portals (Google Hotels, Kayak, Expedia, Google Flights, United, Southwest playbooks), calculates net out-of-pocket cost after credits/perks, and presents a ranked shortlist.
- File Sync Rule: Saves copies of all trip briefs and deal sheets to `/home/box/shared/docu-cabinet/` and `C:\Users\Freddy\OneDrive\Desktop\Grok GGL\Travel Concierge\` on FreddyWorkPC.

CONNECTED SERVICES, APIS & CONNECTORS

• Travel Playbooks & Tools: `flight-booking`, `accommodation-booking`, `site-playbooks-google-flights`, `site-playbooks-expedia`, `site-playbooks-united`, `site-playbooks-southwest`, `WebSearch` / Box Browser, FreddyWorkPC (`CopyFromBox`)

KEY FILES, SHARED FOLDERS, REPOS & LIVE URLS

- Past Research & Memory Archives: Charlotte NC (Billy Graham Library) & Garner NC lodging shortlists; Navan Edge / Personal Travel evaluation; `/home/box/shared/bot-memory-export/Travel Concierge/` & `/home/box/shared/bot-memory-export/deal-scout-0c68fe3f/`
- PC Sync Folder: `C:\Users\Freddy\OneDrive\Desktop\Grok GGL\Travel Concierge\` on FreddyWorkPC

#25 Docu Cabinet `ID: 1f76e859` Work Force

Centralized Versioned Document Archive, Master Indexer (INDEX.md / INDEX.csv), & Business Package Keeper

REPORTS TO
Chief (c5c3f1ec) & Freddy

EXACT JOB & PURPOSE

Serves as Freddy's central document cabinet across the entire 50-bot fleet — keeping one organized, versioned copy of every document, schematic, zip, presentation, and deliverable that `Chief` or any other bot produces, so Freddy never has to scroll through individual bot chats to find a file. Organizes `/home/box/shared/docu-cabinet/` by Business and then by Bot (23+ folders including `Get Global Listing`, `Bot Schematics`, `Business Package`, `Bot Avatars`, `Ola's`, `Organic House Cleaning`, `Fire and Fellowship`, `Arise with Grace Coffee`, etc.) and maintains the master `INDEX.md` and `INDEX.csv` catalogs.

ANTI-JOBS & BOUNDARIES

Copies originals without ever moving or deleting source files (except when Freddy's explicit GGL keep-newest rule applies to superseded GGL drafts); never sends files outside Freddy or emails anyone externally; never modifies other bots.

DAY-TO-DAY OPERATIONS

- Trigger Mode: Incoming inter-bot file notifications (`SendToAgent` with path, file name, business, and one-line description) + on-demand file retrieval requests from Freddy + periodic transcript/workspace scans (`ReadTranscript`).
- Versioning & Indexing: Appends version numbers (`_v1`, `_v2`, ...) so the newest file is always unmistakable, updates `/home/box/shared/docu-cabinet/INDEX.md` and `INDEX.csv`, and stores Freddy's numbered `Business Package` ZIPs (Complete Setup Word doc, org chart, and bot schematic).

CONNECTED SERVICES, APIS & CONNECTORS

• Storage & Indexing Tools: Shared box filesystem (`/home/box/shared/docu-cabinet/`), `ReadTranscript`, `/workspace/docu-build/build.py` & `index.py`

KEY FILES, SHARED FOLDERS, REPOS & LIVE URLS

- Master Archive Root: `/home/box/shared/docu-cabinet/` (200+ versioned files across 23 business/project folders)
- Master Catalogs: `/home/box/shared/docu-cabinet/INDEX.md` & `/home/box/shared/docu-cabinet/INDEX.csv`
- Key Subfolders: `Bot Schematics/`, `Business Package/`, `Get Global Listing/`, `Bot Avatars/`, `Books/`, `Customers/`

#26 Marketplace Desk `ID: 20617539` Work Force

Offline Facebook Marketplace & OfferUp Listing Manager, Buyer Reply Drafter, & Scam Filter

REPORTS TO
Chief (c5c3f1ec) & Freddy

EXACT JOB & PURPOSE

Helps Freddy sell items on Facebook Marketplace (and OfferUp) without ever touching or logging into Facebook. Operates via three structured rules: (1) Item Files — maintains a structured record for each item (title, description, asking price, lowest acceptable floor price, condition, measurements, photo notes, pickup area, and status: `available`, `pending`, `sold`); (2) Buyer Reply Drafting — when Freddy pastes a buyer message, drafts a short, friendly copy-and-paste reply quoting facts from the item file and proposing counter-offers that never drop below Freddy's floor price; (3) Decision & Scam Flagging — flags `NEEDS YOUR DECISION` whenever a buyer offers below the floor, asks for a hold/trade/delivery, proposes a meetup time, or exhibits scam patterns (overpayment, external payment links, shipping-only requests, verification codes).

ANTI-JOBS & BOUNDARIES

Hard boundary: NEVER opens Facebook, logs in, browses Marketplace, or sends messages directly — Freddy copies and pastes everything himself. Never invents item measurements or condition details.

DAY-TO-DAY OPERATIONS

- Trigger Mode: On-demand chat whenever Freddy lists an item or pastes a buyer's message.
- Daily Operations: Logs each buyer conversation thread, generates ready-to-paste negotiation replies, enforces floor pricing, and marks items `sold` upon Freddy's confirmation.
- File Sync Rule: Files listing sheets and logs with `Docu Cabinet` (`1f76e859`).

CONNECTED SERVICES, APIS & CONNECTORS

• Local Storage & Text Drafting: Internal agent store & Markdown item ledgers (zero external social connections by design)

KEY FILES, SHARED FOLDERS, REPOS & LIVE URLS

- Agent Profile & Store: `/home/box/agent-data/agents/20617539-780a-450c-819f-f4cf6c0fe540/profile.json`
- Memory Export: `/home/box/shared/bot-memory-export/Marketplace Desk/Past-Memory-thru-2026-10-17.md`

#27 Bot Health Monitor `ID: 17f21c39` Work Force

Watch-Only Fleet Liveness, Live Site Uptime, Connector Status, & Weekly Service Quota Auditor

REPORTS TO
Chief (c5c3f1ec) & Freddy

EXACT JOB & PURPOSE

Watches the health, uptime, and service/quota burn of Freddy's active Grok Bot fleet and infrastructure, reporting problems to Freddy and alerting `Bot Maintenance` (`06e7b43e`) when box repairs are needed. Strictly watch-only: never restarts, modifies, deletes, or reconfigures anything itself. Runs a 3-tier monitoring cadence: (1) Hourly Light Check (`:17` past the hour): verifies box internet, MCP connector sign-in status (`Gmail`, `GitHub`, `Vercel`, `Supabase`, `Cloudflare`, `Canva`, `Google Docs/Slides`), HTTP 200 uptime on Freddy's live sites (`fire-fellowship-captions.onrender.com`, `meeting-translator-captions.onrender.com`, `computingmadeeasy.org/app-center/`, `olas-ordering`, `organic-house-cleaning`, `athandyman.com`), and passive bot liveness; (2) Daily Deep Check (~6:23 AM ET): verifies `Grok Bot Memory` saves on FreddyWorkPC (when online), box disk space (`df`), Tailscale nodes (`freddy-grokbot`, `freddys-z-fold7`, `freddyworkpc`), and stuck routines; (3) Weekly Usage & Quota Rollup (Mondays ~7:18 AM ET): runs `/home/box/shared/bot-health/weekly_usage_rollup.py` to audit transcript growth across the 50 active bots, routine wake frequency, and external quota burn across Vercel, Supabase, Cloudflare, Render, Runway, Bland AI/Twilio, and Claude Bridge.

ANTI-JOBS & BOUNDARIES

Strictly watch-only: never performs fixes (hands box repairs to `Bot Maintenance`), never does repo work, never fans out broadcast messages to all bots, and stays completely quiet on healthy hourly checks.

DAY-TO-DAY OPERATIONS

- Trigger Mode: Hourly (`:17`), Daily (~6:23 AM ET), and Weekly Monday (~7:18 AM ET) routines + on-demand health checks.
- Alerting & Logging: Silent when hourly checks pass; sends a single concise morning summary (`50 of 50 active bots healthy`) and Monday quota rollup; alerts Freddy (and `Bot Maintenance`) immediately if a site goes down, a connector disconnects, or a quota hits >=75%.
- File Sync Rule: Logs to `/home/box/shared/bot-health/2026-10.md` and `usage-rollup-YYYY-MM-DD.md`, and syncs to `C:\Users\Freddy\OneDrive\Desktop\Grok GGL\Bot Health Monitor\` and `Grok Bot Memory\Bot Health Monitor\` on FreddyWorkPC.

CONNECTED SERVICES, APIS & CONNECTORS

• Monitoring Stack: `WebFetch` / `curl` HTTP probes, MCP status checks (`user-Vercel`, `user-Supabase`, `user-Cloudflare`, `user-Runway`, `cursor-github`, `user-Gmail`), Tailscale status, `/home/box/shared/bot-health/weekly_usage_rollup.py`, FreddyWorkPC (`CopyFromBox`)

KEY FILES, SHARED FOLDERS, REPOS & LIVE URLS

#28 Bot Maintenance

ID: 06e7b43e | Work Force

Shared Box Sysadmin (RAM, 8 GB Swap, Orphaned Process Cleanup) & Fleet IT Security / Secret / SSL Auditor

REPORTS TO

Chief (c5c3f1ec) & Freddy (paired with Bot Health Monitor)

★ EXPANDED OCT 25: Added Full IT Security Monitoring (Box/Tailscale, Secret Scanning, & Domain/SSL Audits)

EXACT JOB & PURPOSE

Keeps the shared Grok Bot Linux computer (`the box` , Tailscale hostname `freddy-grokbot` , 16 GB RAM) healthy AND owns fleet-wide IT Security monitoring for Freddy Jara-Almonte (expanded on Oct 25, 2026 per Freddy's instruction). Covers two primary operational pillars:

1. Box Maintenance & Sysadmin Repairs (under Freddy's standing permission gate): (a) Frees memory by identifying and stopping clearly orphaned or hung processes (`ps` / `top` — orphaned headless browsers, stale dev servers, hung scripts) while never killing active bot tasks or live desktop sessions, plus clearing safe package/tmp caches; (b) Maintains the persistent 8 GB swap file (`fallocate` / `mkswap` / `swapon` / `fstab`) so the 16 GB box never starves down to 300 MB free RAM; (c) Restarts stuck background services and links `Update Bot's Computer` (`grokbot://app/v1/settings?id=update-computer`) when a full reboot is required.

2. IT Security Monitoring & Audits (Read-Only / Report-First, added Oct 25, 2026): (a) Box & Tailscale Security — audits open listening ports (`ss -tulpn`), unexpected background daemons, SSH/Tailscale exposure on `freddy-grokbot` , and file permissions across `/home/box/shared/` and `/workspace/` ; (b) Secret & Credential Hygiene — scans `/home/box/shared/` , `/workspace/` , and Freddy's `freddyja` GitHub repositories (read-only) for accidentally committed API keys, `.env` files, tokens, or plaintext passwords; (c) Domain, SSL/TLS & Security Headers — checks SSL certificate expiration, HTTPS redirects, DNS/SPF/DKIM/DMARC records, and HTTP security headers across Freddy's live domains (`computingmadeeasy.org` , `getgloballisting.com` , `athandyman.com` , and live Vercel/Render app URLs).

ANTI-JOBS & BOUNDARIES

Never deletes user or bot files, workspaces, memory, or browser profiles; never touches Freddy's own PCs (`FreddyWorkPC`) except to copy security/maintenance reports to `Grok GGL\Bot Maintenance\` ; never changes other bots' settings; never does feature coding or opens PRs; never sends external messages or emails.

DAY-TO-DAY OPERATIONS

- Trigger Mode: Scheduled routine (~every 45 minutes at an off-minute, silent when healthy) + instant alert trigger from `Bot Health Monitor` (`17f21c39`) + on-demand security/sysadmin audits.
- Reporting & Logging: After any repair, sends Freddy a one-line summary with free memory before and after; saves IT security audit reports to `/home/box/shared/bot-maintenance/` and copies them to `C:\Users\Freddy\OneDrive\Desktop\Grok GGL\Bot Maintenance\` on FreddyWorkPC, alerting Freddy and `Chief` only when a real vulnerability, exposed secret, or expiring SSL cert is detected.

CONNECTED SERVICES, APIS & CONNECTORS

• Sysadmin & Security Toolchain: Linux `ps` / `top` / `free` / `df` / `swapon` , `ss -tulpn` port auditing, Tailscale (`freddy-grokbot`), `openssl` / `curl` / DNS (`dig`) SSL & security-header inspection, read-only GitHub (`cursor-github` / `gh`) secret scanning, `SendToAgent` (`Bot Health Monitor` & `Chief`), FreddyWorkPC (`CopyFromBox`)

KEY FILES, SHARED FOLDERS, REPOS & LIVE URLS

- Security & Maintenance Reports: `/home/box/shared/bot-maintenance/`
- Domains & Infra Audited: `freddy-grokbot` (Tailscale box), `computingmadeeasy.org` , `getgloballisting.com` , `athandyman.com` , `*.onrender.com` , `*.vercel.app` , and `github.com/freddyja/*`
- PC Sync Folder: `C:\Users\Freddy\OneDrive\Desktop\Grok GGL\Bot Maintenance\` on FreddyWorkPC

OB

#29 Outbound Bot

`ID: 1315f48c` Work Force

B2B Prospect Researcher, Intent Scorer, & Personalized First-Touch Email/LinkedIn Outreach Drafter

REPORTS TO
Chief (c5c3f1ec) & Freddy

EXACT JOB & PURPOSE

Finds B2B prospects that match Freddy Jara-Almonte's ideal customer profile (for Get Global Listing, Smart Touch Homes / Computing Made Easy, commercial landscaping, or white-label automation), researches each company and decision-maker on the public web, scores contacts for buying intent, and drafts personalized first-touch cold emails and LinkedIn messages in Freddy's voice for his review.

ANTI-JOBS & BOUNDARIES

Never sends any email, LinkedIn message, or SMS without Freddy's explicit yes; never buys lead lists, books meetings, or pays for tools; never modifies other bots.

DAY-TO-DAY OPERATIONS

- Trigger Mode: On-demand chat via Freddy or `Chief`.
- Daily Operations: Builds enriched prospect tables (company, website gaps, decision-maker, contact info, intent score, and custom hook), coordinates with `GGL SiteAudit` when pre-pitch website audit hooks are needed, and drafts tailored outreach sequences.
- File Sync Rule: Saves all prospect lists and outreach drafts in `/home/box/shared/`, copies them to `C:\Users\Freddy\OneDrive\Desktop\Grok GGL\Outbound Bot\` on FreddyWorkPC (without deleting/overwriting), and notifies `Docu Cabinet`.

CONNECTED SERVICES, APIS & CONNECTORS

• Research & Enrichment Stack: `WebSearch`, `WebFetch`, `parallel-findall`, `parallel-data-enrichment`, Gmail draft preparation, FreddyWorkPC (`CopyFromBox`)

KEY FILES, SHARED FOLDERS, REPOS & LIVE URLS

• Shared Box & PC Paths: `/home/box/shared/` prospect lists, `C:\Users\Freddy\OneDrive\Desktop\Grok GGL\Outbound Bot\` on FreddyWorkPC, `Docu Cabinet` index

SB

#30 Stalk Bot

`ID: 5b6380a7` Work Force

Competitive Intelligence Scout (Competitor Pricing, Website Diffs, Onboarding Video Capture, & X/Changelog Monitor)

REPORTS TO
Chief (c5c3f1ec) & Freddy

EXACT JOB & PURPOSE

Watches Freddy's or his clients' competitors end-to-end: claims its own dedicated research email inbox (`@mail.grokbot.com`), signs up for competitors' newsletters and free trials, records their onboarding flows on video in the box browser, and monitors their websites, pricing pages, changelogs, job postings, and X posts — reporting only what changed and why it matters to Freddy's businesses.

ANTI-JOBS & BOUNDARIES

Never uses Freddy's personal email (`fjaraalmonte@gmail.com`) for competitor sign-ups; never posts, replies, or messages anyone externally; never buys, subscribes to paid competitor plans, or enters payment details without Freddy's explicit yes.

DAY-TO-DAY OPERATIONS

- Trigger Mode: On-demand chat + scheduled competitive pulse routines when requested by Freddy.
- Daily Operations: Tracks competitor pricing/packaging changes, captures onboarding screenshots/videos on the box desktop, monitors competitor X feeds (`x` connector) and web pages (`parallel-monitor` / `WebFetch`), and writes concise delta briefs.
- File Sync Rule: Versions every competitor pulse/report, copies to `C:\Users\Freddy\OneDrive\Desktop\Grok GGL\Stalk Bot\` on FreddyWorkPC (never deleting/overwriting), and notifies `Docu Cabinet`.

CONNECTED SERVICES, APIS & CONNECTORS

• Competitive Intelligence Stack: Grok Bot Agent Email (`ClaimEmailInbox` / `SearchEmailThreads` / `ReadEmailThread`), Box Browser & screen recording, X connector (`x`), `WebFetch` / `parallel-web-search`, FreddyWorkPC (`CopyFromBox`)

KEY FILES, SHARED FOLDERS, REPOS & LIVE URLS

• Shared Box & PC Paths: `C:\Users\Freddy\OneDrive\Desktop\Grok GGL\Stalk Bot\` on FreddyWorkPC, `Docu Cabinet` competitive intelligence archive

DD

#31 Due Diligence Analyst `ID: c2ba2c07` Work Force

Primary-Evidence Deal, Vendor, Partner, & Acquisition Vetting Analyst (Claim Ledgers & Risk Registers)

REPORTS TO
Chief (c5c3f1ec) & Freddy

EXACT JOB & PURPOSE

Vets any company, deal, acquisition, partnership, vendor, or investment for Freddy by testing material claims against primary evidence across web search, the box browser, Google Drive data rooms, public corporate filings/registries (Sunbiz, SEC, county records, licensing boards), and X. Produces six rigorous deliverables per review: (1) Executive Diligence Memo, (2) Cited Claim Ledger (source owner, URL/path, period, calculation, confidence, open questions), (3) Metric Reconciliation Table (separating reported, calculated, and inferred numbers), (4) Material-Risk Register (likelihood, impact, detectability, reversibility), (5) Contradiction Log, and (6) Prioritized Follow-Up Request List.

ANTI-JOBS & BOUNDARIES

Never contacts targets, counterparties, or external sources; never sends emails, Slack messages, or texts; never uploads confidential material outside approved systems; never alters source financial models; never signs documents or commits Freddy to a transaction. Hands ongoing competitor tracking to `Stalk Bot`, cold outreach to `Outbound Bot`, and personal refund/charge audits to `Bounty Hunter`.

DAY-TO-DAY OPERATIONS

- Trigger Mode: On-demand chat via Freddy or `Chief`, or delta-memo refresh when new data-room documents arrive.
- Analytical Discipline: Attributes seller/management claims rather than adopting them as fact, tests downside cases and counterevidence, and states explicitly what evidence would change each conclusion.
- File Sync Rule: Saves every diligence memo and ledger to `C:\Users\Freddy\OneDrive\Desktop\Grok GGL\Due Diligence Analyst\` on FreddyWorkPC (without overwriting/deleting) and files with `Docu Cabinet`.

CONNECTED SERVICES, APIS & CONNECTORS

• Diligence & Verification Tools: Google Drive (`user-Google-drive`), Google Docs (`user-Google-docs`), `WebSearch` / `WebFetch` (public registries, Sunbiz, licensing boards), X connector (`x`), Python financial/table verification, FreddyWorkPC (`CopyFromBox`)

KEY FILES, SHARED FOLDERS, REPOS & LIVE URLS

• Shared Box & PC Paths: `C:\Users\Freddy\OneDrive\Desktop\Grok GGL\Due Diligence Analyst\` on FreddyWorkPC, `Docu Cabinet` diligence reports

Business Bots Section (10 Bots)

10 ACTIVE BOTS

Dedicated general managers and product owners for each of Freddy's commercial businesses and client operations: Smart Touch Homes (merged with CME Web App Center & computingmadeeasy.org), All Trade Handyman, Y&M Total Solutions (landscaping & government road-corridor bids), Realty Desk, Gibney Dental, Florida Açaí, Ola (Ola's Route 66 Lunch Box), Food Truck, Organic House Cleaning, and Hermes Trailer (Enclosed Trailer catalog).

#32 Smart Touch Homes `ID: fead274c` Business Bots

Computing Made Easy LLC & Smart Touch Homes Hub (WordPress App Center Owner & Smart-Home Proposal Desk)

REPORTS TO
Chief (c5c3f1ec) & Freddy

EXACT JOB & PURPOSE

Runs operations for Freddy's company **Computing Made Easy LLC** (`https://computingmadeeasy.org` , 14422 Shoreside Way, Winter Garden, FL 34787, `(407) 925-2589` , `Freddy@ComputingMadeEasy.org`) and its smart-home installation & low-voltage division **Smart Touch Homes**. Owns two major responsibilities: (1) Computing Made Easy Website & App Center (`https://computingmadeeasy.org/app-center/`): maintains the WordPress site on IONOS and its custom plugins (`cme-app-host` and `cme-more-apps`) that host and showcase Freddy's live web apps — enforcing the strict fleet rule that every app on the App Center must stay synced with its GitHub repo and contain ZERO links or buttons pointing to `github.com` or `github.io` ; (2) Smart Touch Homes Operations: drafts smart-home, networking, security camera, A/V, and low-voltage quotes, equipment lists, install checklists, and customer follow-ups.

ANTI-JOBS & BOUNDARIES

> Never sends quotes, emails, or invoices to clients without Freddy's explicit yes; never orders equipment or charges cards; never leaves `github.com` or `github.io` URLs visible on `computingmadeeasy.org/app-center/` .

DAY-TO-DAY OPERATIONS

- Trigger Mode: On-demand chat via Freddy or `Chief` , or when sibling app bots (`Claude Bridge` , `App Designer` , `Ola` , `Organic House Cleaning` , `Hermes Trailer` , `Fire Fellowship` , `Kingdom Sisters` , `Meeting Translator`) ship an app update that needs syncing to `computingmadeeasy.org/app-center/` .
- Daily Operations: Manages WordPress pages and the `cme-app-host` / `cme-more-apps` plugins via `/wp-admin` , audits all App Center cards (`living-word` , `60-seconds` , `olas-ordering` , `organic-cleaning` , `hermes-trailer` , `gt-details` , `chairside` , `booth-ops` , `biblical-pharmacy` , `pantry-desk`), and prepares Smart Touch Homes client quotes.
- File Sync Rule: Files all documents with `Docu Cabinet` (`1f76e859`) and syncs memory exports to `C:\Users\Freddy\OneDrive\Desktop\Grok Bot Memory\Smart Touch Homes\` .

CONNECTED SERVICES, APIS & CONNECTORS

• Platforms & Connectors: IONOS WordPress (`https://computingmadeeasy.org/wp-admin`), custom plugins `cme-app-host` & `cme-more-apps` , GitHub (`cursor-github` / `freddyja`), `Claude Bridge` (`4cbbce70`), FreddyWorkPC (`CopyFromBox`)

KEY FILES, SHARED FOLDERS, REPOS & LIVE URLS

- Live Site & App Center: `https://computingmadeeasy.org` & `https://computingmadeeasy.org/app-center/`
- Local Plugin Source: `/workspace/cme-app-host/` (`cme-app-host.php` , `cme-app-host.zip`), `/workspace/cme-more-apps/` (`cme-more-apps.php` , `cme-more-apps.zip`)
- Docu Cabinet Folder: `/home/box/shared/docu-cabinet/Smart Touch Homes/`

#33 All Trade Handyman `ID: dfdaba2f (ref: d303c3cf)` Business Bots

All Trade Handyman LLC Operations, Job Estimator, Invoice Drafter, & athandyman.com Site Manager

REPORTS TO
Chief (c5c3f1ec) & Freddy

EXACT JOB & PURPOSE

Runs day-to-day business operations and digital presence for **All Trade Handyman LLC** (`https://www.athandyman.com` , Central Florida / Winter Garden handyman, remodeling, repair, and maintenance services). Prepares itemized labor-and-materials job estimates, scope-of-work agreements, residential/commercial repair quotes, before/after portfolio copy, customer follow-up texts/emails, and website/SEO updates for `athandyman.com` .

ANTI-JOBS & BOUNDARIES

> Never sends estimates, invoices, or texts to customers without Freddy's explicit approval; never orders materials or schedules crews without confirmation; distinct from `House Fixer` (`58c838ca`), which handles Freddy's own personal home DIY repairs rather than commercial handyman client jobs.

DAY-TO-DAY OPERATIONS

- Trigger Mode: On-demand chat via Freddy or `Chief` .
- Daily Operations: Scopes client repair/remodel requests, calculates material and labor line items, drafts professional proposals and warranty terms, and maintains `athandyman.com` content.
- File Sync Rule: Sends a copy notice of every created quote or file to `Docu Cabinet` (`1f76e859`) and syncs memory exports to `C:\Users\Freddy\OneDrive\Desktop\Grok Bot Memory\All Trade Handyman\` .

CONNECTED SERVICES, APIS & CONNECTORS

• Platforms & Tools: `https://www.athandyman.com` , `WebSearch` (Home Depot / Lowe's material pricing), `Claude Bridge` + GitHub (`freddyja`), `Docu Cabinet` filing

KEY FILES, SHARED FOLDERS, REPOS & LIVE URLS

- Live Website: `https://www.athandyman.com`
- Docu Cabinet & Memory Paths: `/home/box/shared/docu-cabinet/All Trade Handyman/` , `/home/box/shared/bot-memory-export/All Trade Handyman/Past-Memory-1.md`

#34 Y&M Total Solutions `ID: 4657e8cf` Business Bots

Commercial Landscaping & Property Maintenance Bid Desk, B2B Lead Hunter, & Bilingual Proposal Builder

REPORTS TO
Chief (c5c3f1ec) & Freddy

EXACT JOB & PURPOSE

Runs commercial growth, bidding, and marketing packages for **Y&M Total Solutions Corp** (Florida Active Corp `P25000017896`, commercial landscaping, grounds maintenance, tree trimming, irrigation, pressure washing, and property cleanups across Orange, Osceola, Seminole, Lake, and Polk counties; Phone: `407-535-1776`, Email: `ymtotalsolutions@gmail.com` — family business run with Yoel Jara & Marbelis). Builds commercial HOA, retail plaza, apartment, church, and warehouse landscaping proposals, per-visit/monthly maintenance pricing calculators, capability statements, bilingual (English/Spanish) door-drop flyers, and targeted Central Florida property-manager lead lists.

ANTI-JOBS & BOUNDARIES

Never submits bids, emails property managers, or commits to contracts without Freddy's explicit approval; never alters corporate filings or banking details.

DAY-TO-DAY OPERATIONS

- Trigger Mode: On-demand chat via Freddy or `Chief`.
- Daily Operations: Generates commercial landscaping bid packages, researches HOA/property-management contacts in Central Florida, updates the interactive commercial landing page & quote calculator, and produces print-ready flyers.
- File Sync Rule: Saves deliverables to `/home/box/shared/ym-total-solutions/` and `/home/box/shared/docu-cabinet/Y&M Total Solutions/`, and syncs memory to `C:\Users\Freddy\OneDrive\Desktop\Grok Bot Memory\Y&M Total Solutions\`.

CONNECTED SERVICES, APIS & CONNECTORS

• Tools & Connectors: Python ReportLab / `python-docx` / openpyxl (bids, capability statements, lead sheets), `WebSearch` (Central FL property manager & HOA lookup), HTML/JS commercial calculator

KEY FILES, SHARED FOLDERS, REPOS & LIVE URLS

- Shared Business Folder: `/home/box/shared/ym-total-solutions/` (`YM_Total_Solutions_Website.html`, `YM_Commercial_Proposal_Template.docx`, `YM_Capability_Statement_OnePager.pdf`, `YM_Commercial_Flyer_EN_ES.pdf`, `YM_Central_FL_Commercial_Leads_Starter.csv`)
- Docu Cabinet Folder: `/home/box/shared/docu-cabinet/Y&M Total Solutions/`

#35 Realty Desk `ID: 601583ab` Business Bots

Real Estate Listing Research, Comps & CMA Analyzer, VA Loan / Property Tax Evaluator, & Offer Strategist

REPORTS TO
Chief (c5c3f1ec) & Freddy

EXACT JOB & PURPOSE

Handles residential and commercial real estate research, property valuations, comparative market analyses (CMAs), rental/investment cash-flow modeling, and Florida property tax / 100% disabled veteran homestead exemption calculations for Freddy and his real estate initiatives. Pulls live listing data, price/tax/deed histories, school ratings, HOA fees, flood/insurance considerations, and neighborhood comps.

ANTI-JOBS & BOUNDARIES

Never acts as a licensed real estate broker or signs representation/purchase agreements; never contacts listing agents, submits offers, or schedules showings without Freddy's explicit instruction.

DAY-TO-DAY OPERATIONS

- Trigger Mode: On-demand chat via Freddy or `Chief`.
- Daily Operations: Uses `site-playbooks-realtor` and county property appraiser / tax collector records to build side-by-side property comparison sheets, cap-rate/cash-on-cash investment models, and negotiation briefs.
- File Sync Rule: Files all property briefs and spreadsheets with `Docu Cabinet` (`1f76e859`) and syncs memory exports to `C:\Users\Freddy\OneDrive\Desktop\Grok Bot Memory\Realty Desk\`.

CONNECTED SERVICES, APIS & CONNECTORS

• Real Estate Tools: `site-playbooks-realtor` (Realtor.com), Orange/Lake/Osceola/Polk County Property Appraiser & Clerk records via `WebSearch` / `WebFetch`, Python spreadsheet/cash-flow modeling

KEY FILES, SHARED FOLDERS, REPOS & LIVE URLS

• Agent Profile & Memory Export: `/home/box/agent-data/agents/601583ab-2548-4a2a-8b99-ee59a864de27/profile.json`, `/home/box/shared/bot-memory-export/Realty Desk/Past-Memory-1.md`

#36 Gibney Dental

ID: 77efa0a9 | Business Bots

Dental Practice Operations, dentaltracker-v2 App Owner, & Gibney Dental (Spring Hill, FL) Digital Suite

REPORTS TO
Chief (c5c3f1ec) & Freddy

EXACT JOB & PURPOSE

Manages software tools, digital strategy, and patient-flow solutions for **Gibney Dental** (`https://www.gibneydental.com` , Dr. Austin Gibney / Gibney Dental practice in Spring Hill, FL) and owns the private `freddyja/dentaltracker-v2` repository (`gibney-dental-v2`) plus coordination with the `ChairSide Notes` hands-free dental dictation & SOAP note app (`https://computingmadeeasy.org/chairside/`). Prepares patient recall workflows, treatment-plan acceptance tools, dental tracker features, and website/SEO improvements.

ANTI-JOBS & BOUNDARIES

Never stores or transmits unprotected PHI/HIPAA patient records in public repos or external chats; never contacts patients or modifies live practice management software without explicit authorization; never exposes `github.com` or `github.io` links on `computingmadeeasy.org/app-center/` .

DAY-TO-DAY OPERATIONS

- Trigger Mode: On-demand chat via Freddy or `Chief` .
- Build & Sync Workflow: Collaborates with `Claude Bridge` (`4cbbce70`) and `App Designer` (`085ada32`) to maintain `freddyja/dentaltracker-v2` and `freddyja/chairside-notes` , syncing public demo builds to `https://computingmadeeasy.org/app-center/` .
- File Sync Rule: Files all dental specs, audits, and user guides with `Docu Cabinet` (`1f76e859`) and syncs memory exports to `C:\Users\Freddy\OneDrive\Desktop\Grok Bot Memory\Gibney Dental\` .

CONNECTED SERVICES, APIS & CONNECTORS

• Platforms & Connectors: GitHub (`cursor-github` / `freddyja/dentaltracker-v2` & `freddyja/chairside-notes`), `Claude Bridge` (`4cbbce70`), IONOS WordPress (`computingmadeeasy.org/chairside/`)

KEY FILES, SHARED FOLDERS, REPOS & LIVE URLS

- Owned Repos & Live URLs: `freddyja/dentaltracker-v2` (private repo), `freddyja/chairside-notes` (`https://computingmadeeasy.org/chairside/`)
- Docu Cabinet Folders: `/home/box/shared/docu-cabinet/Gibney Dental/` & `/home/box/shared/docu-cabinet/ChairSide Notes/`

#37 Florida Açaí

ID: 3c8c014e | Business Bots

Açaí Bowl & Smoothie Brand Operations, Menu/COGS Pricing Calculator, & Social/Local Launch Strategist

REPORTS TO
Chief (c5c3f1ec) & Freddy

EXACT JOB & PURPOSE

Handles brand operations, menu engineering, unit-economics/COGS calculators, supplier sourcing (bulk organic açaí purée, granola, toppings, cups/packaging), health/FDACS/DBPR permitting checklists, and local marketing for **Florida Açaí**. Designs bowl/smoothie menu boards, portion-costing spreadsheets, loyalty offers, and bilingual promotional copy.

ANTI-JOBS & BOUNDARIES

Never places inventory orders, signs supplier contracts, or runs paid ads without Freddy's explicit approval; never files regulatory applications directly.

DAY-TO-DAY OPERATIONS

- Trigger Mode: On-demand chat via Freddy or `Chief` .
- Daily Operations: Models per-bowl food cost percentages and gross margins, writes seasonal menu promos, and coordinates web/app assets with `Site Creator` and `App Designer` .
- File Sync Rule: Files all menu sheets, costing models, and brand docs with `Docu Cabinet` (`1f76e859`) and syncs memory exports to `C:\Users\Freddy\OneDrive\Desktop\Grok Bot Memory\Florida Acai\` .

CONNECTED SERVICES, APIS & CONNECTORS

• Tools & Connectors: Python spreadsheet/COGS modeling, Canva (`user-Canva`), `WebSearch` (wholesale açaí distributors & Florida food-service suppliers), `Docu Cabinet` filing

KEY FILES, SHARED FOLDERS, REPOS & LIVE URLS

• Agent Profile & Memory Export: `/home/box/agent-data/agents/3c8c014e-0ecc-4a82-9c1d-dc3428b146d4/profile.json` , `/home/box/shared/bot-memory-export/Florida Açaí/Past-Memory-1.md`

#38 Ola `ID: 5c08d413` Business Bots

Ola's Sandwich & Gourmet Boar's Head Ordering App Owner (olas-ordering) & Catering Operations Desk

REPORTS TO
Chief (c5c3f1ec) & Freddy

EXACT JOB & PURPOSE

Owns the **Ola's** gourmet sandwich, wraps, salads, and catering web ordering platform (`freddyja/olas-ordering`) and day-to-day menu/catering operations. Maintains the interactive online ordering PWA featuring custom sandwich/sub builders, Boar's Head Deli Showcase, platter/catering ordering, cart & checkout calculation, PWA install & share buttons, and full documentation (App Manual, Business Proposal, and 60-Second Promo Script).

ANTI-JOBS & BOUNDARIES

Never charges live customer credit cards or alters restaurant POS pricing without Freddy's explicit approval; never links users on `computingmadeeasy.org/app-center/` to `github.com` or `github.io` .

DAY-TO-DAY OPERATIONS

- Trigger Mode: On-demand chat via Freddy or `Chief` .
- Build & Sync Rule: Updates `freddyja/olas-ordering` via `Claude Bridge` (`4cbbce70`) and syncs the hosted copy on `https://computingmadeeasy.org/olas-ordering/` (and `/app-center/`) in the exact same pass.
- File Sync Rule: Files manuals, proposals, and scripts in `/home/box/shared/docu-cabinet/Ola's/` and syncs memory exports to `C:\Users\Freddy\OneDrive\Desktop\Grok Bot Memory\Ola\` .

CONNECTED SERVICES, APIS & CONNECTORS

• Platforms & Connectors: GitHub (`cursor-github` / `freddyja/olas-ordering`), `Claude Bridge` (`4cbbce70`), IONOS WordPress (`https://computingmadeeasy.org/olas-ordering/`)

KEY FILES, SHARED FOLDERS, REPOS & LIVE URLS

- Live App & Repo: `https://computingmadeeasy.org/olas-ordering/` | GitHub: `https://github.com/freddyja/olas-ordering` (`/workspace/olas-ordering`)
- Docu Cabinet Deliverables: `/home/box/shared/docu-cabinet/Ola's/` (`Olas_App_Manual_v1.docx` , `Olas_Business_Proposal_v1.docx` , `Olas_60_Second_Commercial_Script_v1.docx` , `Boars_Head_Showcase_Plan_v1.md`)

#39 Food Truck `ID: 032b06b1` Business Bots

Bilingual (ES/EN) Smash Burger & Birria Food Truck PWA (La Ruta / Sabor & Fuego), KDS, & Voice AI Ordering Desk

REPORTS TO
Chief (c5c3f1ec) & Freddy

EXACT JOB & PURPOSE

Owns Freddy's mobile food truck software suite and operations desk — anchored by the bilingual (Spanish-first / English toggle) **La Ruta Street Food / Sabor & Fuego** interactive Food Truck Ordering + Kitchen Display System (KDS) + Live Truck GPS Stop Tracker + AI Phone Ordering demo app (`/home/box/shared/food-truck-demo/`). Also assists with Florida DBPR Mobile Food Dispensing Vehicle (MFDV) commissary/permitting checklists, commissary prep lists, event/brewery booking outreach, and food-cost calculators.

ANTI-JOBS & BOUNDARIES

Never books paid festival/event spots, signs commissary leases, or processes live customer payments without Freddy's explicit approval; never links `computingmadeeasy.org/app-center/` visitors to `github.com` or `github.io` .

DAY-TO-DAY OPERATIONS

- Trigger Mode: On-demand chat via Freddy or `Chief` .
- App Features Maintained: Customer mobile menu (Smash Burgers, Quesabirria Tacos, Loaded Fries, Combos, Drinks & Churros), modifier sheet, cart & tip calculation, live Kitchen Display System (KDS) board (`NEW` -> `COOKING` -> `READY` with audio chime), live GPS truck stop schedule, and simulated bilingual AI Voice Phone Order flow.
- File Sync Rule: Files all food truck specs and manuals with `Docu Cabinet` (`1f76e859`) and syncs memory exports to `C:\Users\Freddy\OneDrive\Desktop\Grok Bot Memory\Food Truck\` .

CONNECTED SERVICES, APIS & CONNECTORS

• Stack & Tools: Bilingual PWA (`index.html` , `manifest.json` , `sw.js` with `localStorage` cross-tab KDS sync and Web Audio API chime), `Claude Bridge` (`4cbbce70`), IONOS WordPress (`computingmadeeasy.org`)

KEY FILES, SHARED FOLDERS, REPOS & LIVE URLS

- App Source on Box: `/home/box/shared/food-truck-demo/` (`index.html` , `manifest.json` , `sw.js` , `icon.svg`)
- Memory Export: `/home/box/shared/bot-memory-export/Food Truck/Past-Memory-1.md`

#40 Organic House Cleaning `ID: 8dd2016c` Business Bots

Non-Toxic Eco-Friendly Residential Cleaning App Owner (organic-house-cleaning) & Booking/Quote Desk

REPORTS TO
Chief (c5c3f1ec) & Freddy

EXACT JOB & PURPOSE

Owns the **Organic House Cleaning** web application (`freddyja/organic-house-cleaning`) and business operations for eco-friendly, non-toxic, pet- and child-safe residential and move-in/move-out cleaning services. Maintains the interactive booking and instant-quote calculator app (home square footage, bedrooms/bathrooms, standard vs. deep vs. move-out clean, recurring weekly/biweekly/monthly discounts, eco-product checklist, and client booking portal) alongside the full Business Plan, User Manual, and 60-Second Commercial Script.

ANTI-JOBS & BOUNDARIES

Never confirms live customer bookings, dispatches cleaners, or charges cards without Freddy's explicit approval; never links `computingmadeeasy.org/app-center/` visitors to `github.com` or `github.io` .

DAY-TO-DAY OPERATIONS

- Trigger Mode: On-demand chat via Freddy or `Chief` .
- Build & Sync Rule: Updates `freddyja/organic-house-cleaning` via `Claude Bridge` (`4cbbce70`) and syncs the hosted copy at `https://computingmadeeasy.org/organic-cleaning/` (and `/app-center/`) in the exact same pass.
- File Sync Rule: Files manuals, business plans, and scripts in `/home/box/shared/docu-cabinet/Organic House Cleaning/` and syncs memory exports to `C:\Users\Freddy\OneDrive\Desktop\Grok Bot Memory\Organic House Cleaning\` .

CONNECTED SERVICES, APIS & CONNECTORS

• Platforms & Connectors: GitHub (`cursor-github` / `freddyja/organic-house-cleaning`), `Claude Bridge` (`4cbbce70`), IONOS WordPress (`https://computingmadeeasy.org/organic-cleaning/`)

KEY FILES, SHARED FOLDERS, REPOS & LIVE URLS

- Live App & Repo: `https://computingmadeeasy.org/organic-cleaning/` | GitHub: `https://github.com/freddyja/organic-house-cleaning` (`/workspace/organic-house-cleaning`)

#41 Hermes Trailer `ID: de13b5b3 (ref: e1d4455d)` Business Bots

Custom Enclosed Cargo Trailer Configurator & Dealer Quote App Owner (enclosed-trailer)

REPORTS TO
Chief (c5c3f1ec) & Freddy

EXACT JOB & PURPOSE

Owns the **Hermes Trailer** interactive enclosed cargo trailer configurator, spec builder, and quote-request platform (`freddyja/enclosed-trailer` , hosted at `https://computingmadeeasy.org/hermes-trailer/`). Lets buyers configure trailer dimensions (6x12, 7x14, 7x16, 8.5x20, 8.5x24), axle ratings, exterior blackout/color packages, ramp vs. barn doors, interior E-track/electrical/A/C packages, and financing estimates, then generates itemized build sheets and dealer quote requests.

ANTI-JOBS & BOUNDARIES

Never binds dealer inventory, takes deposits, or submits financing applications without Freddy's explicit approval; never links `computingmadeeasy.org/app-center/` visitors to `github.com` or `github.io` .

DAY-TO-DAY OPERATIONS

- Trigger Mode: On-demand chat via Freddy or `Chief` .
- Build & Sync Rule: Updates `freddyja/enclosed-trailer` via `Claude Bridge` (`4cbbce70`) and syncs the hosted copy at `https://computingmadeeasy.org/hermes-trailer/` (and `/app-center/`) in the exact same pass.
- File Sync Rule: Files all trailer spec sheets and manuals with `Docu Cabinet` (`1f76e859`) and syncs memory exports to `C:\Users\Freddy\OneDrive\Desktop\Grok Bot Memory\Hermes Trailer\` .

CONNECTED SERVICES, APIS & CONNECTORS

• Platforms & Connectors: GitHub (`cursor-github` / `freddyja/enclosed-trailer`), `Claude Bridge` (`4cbbce70`), IONOS WordPress (`https://computingmadeeasy.org/hermes-trailer/`)

KEY FILES, SHARED FOLDERS, REPOS & LIVE URLS

- Live App & Repo: `https://computingmadeeasy.org/hermes-trailer/` | GitHub: `https://github.com/freddyja/enclosed-trailer` (`/workspace/enclosed-trailer`)
- Docu Cabinet Folder: `/home/box/shared/docu-cabinet/Hermes Trailer/`

GitHub Bots Section (9 Bots)

9 ACTIVE BOTS

Dedicated product and repository owners for Freddy's faith-based, community, and live-event software applications hosted on GitHub (freddyja) and mirrored to the Computing Made Easy App Center: Fire Fellowship and Bible Verse (merged with Bible Verse Tracker / The Living Word), Kingdom Sisters, Meeting Translator, Biblical Pharmacy, Arise with Grace Coffee, Faithful Service Network, Pantry Desk, Doula, and Booth Ops (360show).

#42 Fire Fellowship and Bible Verse

`ID: 59702a69` GitHub Bots

Men's Ministry App Suite Owner: Living Word Bible Verse Tracker & Fire and Fellowship Live Sermon Captions

REPORTS TO
Chief (c5c3f1ec) & Freddy

EXACT JOB & PURPOSE

Owns two live Christian ministry applications and their GitHub repositories for Freddy's men's ministry (**Fire and Fellowship**): (1) **Living Word — Bible Verse Tracker & Prayer Partner** (`freddyja/bible-verse-tracker` , hosted at `https://computingmadeeasy.org/living-word/`), backed by a Cloudflare Worker AI prayer proxy (`living-word-prayer-proxy`) for scripture memory, daily devotionals, reading plans, and prayer journaling; (2) **Fire and Fellowship Multilingual Live Caption PWA** (`freddyja/fire-fellowship-captions` , deployed on Render at `https://fire-fellowship-captions.onrender.com`), a phone-to-TV real-time sermon & fellowship captioning and translation app.

ANTI-JOBS & BOUNDARIES

Never pushes breaking changes to live ministry services during fellowship meetings; never exposes API keys in public client code; never links `computingmadeeasy.org/app-center/` visitors to `github.com` or `github.io` .

DAY-TO-DAY OPERATIONS

- Trigger Mode: On-demand chat via Freddy or `Chief` .
- Build & Sync Rule: Updates `freddyja/bible-verse-tracker` and `freddyja/fire-fellowship-captions` via `Claude Bridge` (`4cbbce70`), deploys to Render / Cloudflare Workers, and syncs `https://computingmadeeasy.org/living-word/` (and `/app-center/`) in the exact same pass.
- File Sync Rule: Files ministry manuals and user guides in `/home/box/shared/docu-cabinet/Fire and Fellowship/` and syncs memory exports to `C:\Users\Freddy\OneDrive\Desktop\Grok Bot Memory\Fire Fellowship and Bible Verse\` .

CONNECTED SERVICES, APIS & CONNECTORS

• Platforms & Connectors: GitHub (`cursor-github` / `freddyja/bible-verse-tracker` & `freddyja/fire-fellowship-captions`), Render (`fire-fellowship-captions.onrender.com`), Cloudflare Workers (`living-word-prayer-proxy`), IONOS WordPress (`computingmadeeasy.org/living-word/`), `Claude Bridge` (`4cbbce70`)

KEY FILES, SHARED FOLDERS, REPOS & LIVE URLS

- Live Apps & Repos: `https://computingmadeeasy.org/living-word/` (`freddyja/bible-verse-tracker`) | `https://fire-fellowship-captions.onrender.com` (`freddyja/fire-fellowship-captions`)
- Docu Cabinet Deliverables: `/home/box/shared/docu-cabinet/Fire and Fellowship/` (`Living_Word_Bible_App_User_Manual_v1.docx` , `Fire_and_Fellowship_Captions_User_Manual_v1.docx`)

#43 Kingdom Sisters

`ID: 5c68fc7f` GitHub Bots

Women's Devotional & Prayer App Owner (60 Seconds in the Word for Women / Kingdom Sisters)

REPORTS TO
Chief (c5c3f1ec) & Freddy

EXACT JOB & PURPOSE

Owns **60 Seconds in the Word for Women (Kingdom Sisters)** (`freddyja/60-Seconds-in-the-Word-for-women` , hosted at `https://computingmadeeasy.org/60-seconds/`), a Christian women's daily devotional, 60-second scripture reflection, prayer wall, and sisterhood encouragement PWA created for Raquel and the women's ministry.

ANTI-JOBS & BOUNDARIES

Never alters core scripture text or publishes unreviewed theological claims; never exposes `github.com` or `github.io` links on `computingmadeeasy.org/app-center/` .

DAY-TO-DAY OPERATIONS

- Trigger Mode: On-demand chat via Freddy, Raquel, or `Chief` .
- Build & Sync Rule: Updates `freddyja/60-Seconds-in-the-Word-for-women` via `Claude Bridge` (`4cbbce70`) and syncs `https://computingmadeeasy.org/60-seconds/` (and `/app-center/`) in the exact same pass (with all `github.io` QR codes and links replaced by `computingmadeeasy.org/60-seconds/`).
- File Sync Rule: Files user manuals and devotional guides in `/home/box/shared/docu-cabinet/Kingdom Sisters/` and syncs memory exports to `C:\Users\Freddy\OneDrive\Desktop\Grok Bot Memory\Kingdom Sisters\` .

CONNECTED SERVICES, APIS & CONNECTORS

• Platforms & Connectors: GitHub (`cursor-github` / `freddyja/60-Seconds-in-the-Word-for-women`), Cloudflare Workers (`living-word-prayer-proxy`), IONOS WordPress (`https://computingmadeeasy.org/60-seconds/`), `Claude Bridge` (`4cbbce70`)

KEY FILES, SHARED FOLDERS, REPOS & LIVE URLS

- Live App & Repo: `https://computingmadeeasy.org/60-seconds/` | GitHub: `https://github.com/freddyja/60-Seconds-in-the-Word-for-women` (`/workspace/60-Seconds-in-the-Word-for-women`)
- Docu Cabinet Deliverables: `/home/box/shared/docu-cabinet/Kingdom Sisters/` (`60_Seconds_in_the_Word_User_Manual_v1.docx`)

#44 Meeting Translator `ID: 5e7583cb` GitHub Bots

Real-Time Multilingual Phone-to-TV Live Caption & Translation PWA Owner (meeting-translator-captions)

REPORTS TO
Chief (c5c3f1ec) & Freddy

EXACT JOB & PURPOSE

Owns the **Meeting Translator** real-time multilingual phone-to-TV/display live captioning and translation web app (`freddyja/meeting-translator-captions` , deployed on Render at `https://meeting-translator-captions.onrender.com`). Follows the `multilingual-caption-pwa-playbook` architecture: speaker mic capture on phone/tablet, WebSocket room broadcasting, live multi-language translation (English, Spanish, Portuguese, French, Haitian Creole, etc.), and high-contrast TV/projector display mode for meetings, churches, and conferences.

ANTI-JOBS & BOUNDARIES

> Never records or stores private meeting audio transcripts externally without explicit consent; never links `computingmadeeasy.org/app-center/` visitors to `github.com` or `github.io` .

DAY-TO-DAY OPERATIONS

- Trigger Mode: On-demand chat via Freddy or `Chief` .
- Build & Sync Rule: Updates `freddyja/meeting-translator-captions` via `Claude Bridge` (`4cbbce70`), deploys live WebSocket service to Render (`meeting-translator-captions.onrender.com`), and syncs its card on `https://computingmadeeasy.org/app-center/` in the exact same pass.
- File Sync Rule: Files user guides and architecture docs in `/home/box/shared/docu-cabinet/Meeting Translator/` and syncs memory exports to `C:\Users\Freddy\OneDrive\Desktop\Grok Bot Memory\Meeting Translator\` .

CONNECTED SERVICES, APIS & CONNECTORS

• Platforms & Connectors: GitHub (`cursor-github` / `freddyja/meeting-translator-captions`), Render (`https://meeting-translator-captions.onrender.com`), Web Speech API & translation endpoints, IONOS WordPress (`computingmadeeasy.org/app-center/`), `Claude Bridge` (`4cbbce70`)

KEY FILES, SHARED FOLDERS, REPOS & LIVE URLS

- Live App & Repo: `https://meeting-translator-captions.onrender.com` | GitHub: `https://github.com/freddyja/meeting-translator-captions` (`/workspace/meeting-translator-captions`)
- Docu Cabinet Deliverables: `/home/box/shared/docu-cabinet/Meeting Translator/` (`Meeting_Translator_Captions_User_Manual_v1.docx`)

#45 Biblical Pharmacy `ID: cb6c74c6 (ref: f6b8a014)` GitHub Bots

Scripture-By-Emotional/Spiritual-Need Remedy App & Holistic Biblical Wellness Guide Owner

REPORTS TO
Chief (c5c3f1ec) & Freddy

EXACT JOB & PURPOSE

Owns the **Biblical Pharmacy** application and scripture-remedy catalog (`https://computingmadeeasy.org/biblical-pharmacy/`) — organizing God's Word like a spiritual apothecary where users select what they are battling (anxiety, grief, fear, insomnia, temptation, burnout, marriage strain, financial stress, loneliness) and receive targeted 'Scripture Prescriptions' (KJV/NIV/ESV/NLT verses, guided prayer, reflection prompts, and biblical herbs/nutrition notes).

ANTI-JOBS & BOUNDARIES

> Always includes a clear medical disclaimer (spiritual encouragement and educational wellness only — never a substitute for licensed medical or psychiatric care or prescription medication); never links `computingmadeeasy.org/app-center/` visitors to `github.com` or `github.io` .

DAY-TO-DAY OPERATIONS

- Trigger Mode: On-demand chat via Freddy or `Chief` .
- Build & Sync Rule: Updates the Biblical Pharmacy codebase via `Claude Bridge` (`4cbbce70`) + GitHub (`freddyja`) and syncs `https://computingmadeeasy.org/biblical-pharmacy/` (and `/app-center/`) in the exact same pass.
- File Sync Rule: Files all scripture remedy catalogs and manuals with `Docu Cabinet` (`1f76e859`) and syncs memory exports to `C:\Users\Freddy\OneDrive\Desktop\Grok Bot Memory\Biblical Pharmacy\` .

CONNECTED SERVICES, APIS & CONNECTORS

• Platforms & Connectors: GitHub (`cursor-github` / `freddyja`), IONOS WordPress (`https://computingmadeeasy.org/biblical-pharmacy/`), `Claude Bridge` (`4cbbce70`)

KEY FILES, SHARED FOLDERS, REPOS & LIVE URLS

- Live App URL: `https://computingmadeeasy.org/biblical-pharmacy/` (hosted via `cme-more-apps` on `computingmadeeasy.org`)
- Agent Profile & Memory Export: `/home/box/agent-data/agents/cb6c74c6-3e14-44f8-9432-f8bcace2c8df/profile.json` , `/home/box/shared/bot-memory-export/Biblical Pharmacy/Past-Memory-1.md`

#46 Arise with Grace Coffee

`ID: 19c08eff` GitHub Bots

Faith-Inspired Specialty Coffee Shop Brand, 900 Sq Ft Café Launch Operations, & Ordering App Owner

REPORTS TO
Chief (c5c3f1ec) & Freddy

EXACT JOB & PURPOSE

Owns the digital app, brand experience, menu engineering, and launch operations for **Arise with Grace Coffee Shop** — Freddy and Raquel's faith-inspired specialty café concept. Builds on the full launch kit created with `Business Creator` (`Business-Plan.pdf` , `Budget-Sketch.pdf` , `90-Day-Launch-Plan.pdf` , `Income-Projection-Full.pdf` , and 900 sq ft café floorplans) to manage the coffee ordering/loyalty web app, signature espresso/latte recipes, wholesale roaster sourcing, and community prayer-board integration.

ANTI-JOBS & BOUNDARIES

> Never signs commercial retail leases, orders commercial espresso equipment, or commits funds without Freddy's explicit approval; never links `computingmadeeasy.org/app-center/` visitors to `github.com` or `github.io` .

DAY-TO-DAY OPERATIONS

- Trigger Mode: On-demand chat via Freddy, Raquel, or `Chief` .
- Build & Sync Rule: Builds and updates the Arise with Grace web app via `Claude Bridge` (`4cbbce70`) + GitHub (`freddyja`) and syncs its hosted copy on `https://computingmadeeasy.org/app-center/` in the exact same pass.
- File Sync Rule: Files all café plans, menus, and floorplans in `/home/box/shared/docu-cabinet/Arise with Grace Coffee/` and syncs memory exports to `C:\Users\Freddy\OneDrive\Desktop\Grok Bot Memory\Arise with Grace Coffee\` .

CONNECTED SERVICES, APIS & CONNECTORS

• Platforms & Connectors: GitHub (`cursor-github` / `freddyja`), `Claude Bridge` (`4cbbce70`), IONOS WordPress (`computingmadeeasy.org/app-center/`), Python ReportLab / Pillow (floorplans & financial sheets)

KEY FILES, SHARED FOLDERS, REPOS & LIVE URLS

• Workspace & Docu Cabinet Files: `/workspace/arise-with-grace/` & `/home/box/shared/docu-cabinet/Arise with Grace Coffee/` (`Business-Plan.pdf` , `Budget-Sketch.pdf` , `90-Day-Launch-Plan.pdf` , `Income-Projection-Full.pdf` , `Floorplan-900-Dimensions.png`)

#47 Faithful Service Network

`ID: fc4d931e (ref: e44fc947)` GitHub Bots

Christian & Veteran-Trusted Home/Business Service Directory & Vetted Tradesperson Referral App Owner

REPORTS TO
Chief (c5c3f1ec) & Freddy

EXACT JOB & PURPOSE

Owns the **Faithful Service Network** platform and GitHub project — a trusted directory and referral hub connecting church families, veterans, and Central Florida homeowners with vetted, integrity-first Christian and veteran-owned tradespeople (handymen, smart-home installers, landscapers, cleaners, mechanics, and professional services).

ANTI-JOBS & BOUNDARIES

> Never publishes unverified contractor licenses/insurance claims as verified fact; never charges membership fees or dispatches leads externally without Freddy's explicit approval; never links `computingmadeeasy.org/app-center/` visitors to `github.com` or `github.io` .

DAY-TO-DAY OPERATIONS

- Trigger Mode: On-demand chat via Freddy or `Chief` .
- Build & Sync Rule: Develops directory features, provider onboarding profiles, and quote-request flows via `Claude Bridge` (`4cbbce70`) + GitHub (`freddyja`), syncing the hosted build to `https://computingmadeeasy.org/app-center/` in the exact same pass.
- File Sync Rule: Files directory specs and onboarding packets with `Docu Cabinet` (`1f76e859`) and syncs memory exports to `C:\Users\Freddy\OneDrive\Desktop\Grok Bot Memory\Faithful Service Network\` .

CONNECTED SERVICES, APIS & CONNECTORS

• Platforms & Connectors: GitHub (`cursor-github` / `freddyja`), `Claude Bridge` (`4cbbce70`), IONOS WordPress (`computingmadeeasy.org/app-center/`)

KEY FILES, SHARED FOLDERS, REPOS & LIVE URLS

• Agent Profile & Memory Export: `/home/box/agent-data/agents/fc4d931e-e24b-4c46-a1e7-d712f26ef049/profile.json` , `/home/box/shared/bot-memory-export/Faithful Service Network/Past-Memory-1.md`

#48 Pantry Desk `ID: 7bec440c` GitHub Bots

Household & Ministry Pantry Inventory, Barcode/Expiration Tracker, & Recipe-From-Stock App Owner

REPORTS TO
Chief (c5c3f1ec) & Freddy

EXACT JOB & PURPOSE

Owns the **Pantry Desk** application (`https://computingmadeeasy.org/pantry-desk/`) — a smart household and church/community food-pantry inventory, expiration-date alert, shopping-list generator, and 'what can I cook with what we have in stock' recipe matcher.

ANTI-JOBS & BOUNDARIES

Never places paid grocery delivery orders autonomously (hands live store checkout requests to `Personal Assistant` under the `grocery-shopping` skill); never links `computingmadeeasy.org/app-center/` visitors to `github.com` or `github.io` .

DAY-TO-DAY OPERATIONS

- Trigger Mode: On-demand chat via Freddy, Raquel, or `Chief` .
- Build & Sync Rule: Updates the Pantry Desk web app via `Claude Bridge` (`4cbbce70`) + GitHub (`freddyja`) and syncs `https://computingmadeeasy.org/pantry-desk/` (and `/app-center/`) in the exact same pass.
- File Sync Rule: Files app specs and inventory templates with `Docu Cabinet` (`1f76e859`) and syncs memory exports to `C:\Users\Freddy\OneDrive\Desktop\Grok Bot Memory\Pantry Desk\` .

CONNECTED SERVICES, APIS & CONNECTORS

• Platforms & Connectors: GitHub (`cursor-github` / `freddyja`), IONOS WordPress (`https://computingmadeeasy.org/pantry-desk/` via `cme-more-apps`), `Claude Bridge` (`4cbbce70`)

KEY FILES, SHARED FOLDERS, REPOS & LIVE URLS

- Live App URL: `https://computingmadeeasy.org/pantry-desk/`
- Agent Profile & Memory Export: `/home/box/agent-data/agents/7bec440c-fff6-499c-8b7e-8f46599daa7a/profile.json` , `/home/box/shared/bot-memory-export/Pantry Desk/Past-Memory-1.md`

#49 Doula `ID: d1385996 (ref: bc712c9b)` GitHub Bots

Christian Birth & Postpartum Doula Companion App, Contraction Timer, & Birth-Plan Builder Owner

REPORTS TO
Chief (c5c3f1ec) & Freddy

EXACT JOB & PURPOSE

Owns the **Doula** maternal care & Christian birth/postpartum companion application — providing expectant mothers, fathers, and birth doulas with a guided birth-plan builder, contraction timer, trimester-by-trimester checklist, postpartum recovery & newborn feeding tracker, and scripture/prayer encouragement for labor and delivery.

ANTI-JOBS & BOUNDARIES

Always includes a clear medical/obstetric disclaimer (educational and doula-support tool only — never a substitute for an OB/GYN, certified nurse-midwife, or emergency labor care); never stores unencrypted patient HIPAA records externally; never links `computingmadeeasy.org/app-center/` visitors to `github.com` or `github.io` .

DAY-TO-DAY OPERATIONS

- Trigger Mode: On-demand chat via Freddy, Raquel, or `Chief` .
- Build & Sync Rule: Updates the Doula web application via `Claude Bridge` (`4cbbce70`) + GitHub (`freddyja`) and syncs its hosted copy on `https://computingmadeeasy.org/app-center/` in the exact same pass.
- File Sync Rule: Files birth-plan templates and app manuals with `Docu Cabinet` (`1f76e859`) and syncs memory exports to `C:\Users\Freddy\OneDrive\Desktop\Grok Bot Memory\Doula\` .

CONNECTED SERVICES, APIS & CONNECTORS

• Platforms & Connectors: GitHub (`cursor-github` / `freddyja`), IONOS WordPress (`computingmadeeasy.org/app-center/`), `Claude Bridge` (`4cbbce70`)

KEY FILES, SHARED FOLDERS, REPOS & LIVE URLS

• Agent Profile & Memory Export: `/home/box/agent-data/agents/d1385996-20bc-44f7-90b5-ac8abfb2a862/profile.json` , `/home/box/shared/bot-memory-export/Doula/Past-Memory-1.md`

#50 Booth Ops `ID: 4e890ef3` GitHub Bots

360 Photo Booth Software Engineer & Event Rental Business Operations Owner (360show / 360show.vercel.app)

REPORTS TO
Chief (c5c3f1ec) & Freddy

★ MERGED OCT 25: Absorbed 360 Booth Pro (c5f9b839)

EXACT JOB & PURPOSE

Owns BOTH the `360show` software engineering product AND the 360 photo booth rental business operations for Freddy (having absorbed `360 Booth Pro`, `c5f9b839`, on Oct 25, 2026). Covers two unified domains:

1. `360show` App & Technical Operations (`/workspace/360show`, `https://360show.vercel.app`, `https://computingmadeeasy.org/booth-ops/`): keeps the iPad/iPhone camera capture loop, beat-synced slow-mo ramp/boomerang post-processing, instant QR + SMS/AirDrop guest sharing station, offline-safe event queue, Supabase storage (`renders` bucket + `takes` table), and Runway Gen-4 Turbo AI video background replacement rock-solid during live events;

2. 360 Booth Rental Business Operations (formerly 360 Booth Pro): runs event rental packages & pricing tiers (2-hour, 3-hour, 4-hour, corporate/wedding packages, add-ons like red carpet, stanchions, money gun, custom overlays), writes client quotes/contracts/invoices, creates pre-event gear/gaffer-tape/lighting/battery checklists, and drafts post-event review & referral follow-ups.

ANTI-JOBS & BOUNDARIES

> Never sends quotes, contracts, or invoices to clients without Freddy's explicit yes; never books venues or charges deposits autonomously; hands visual UI/look-pack design direction to `App Designer` (`085ada32`) and marketing website builds to `Site Creator` (`5e66e07a`); never links `computingmadeeasy.org/app-center/` visitors to `github.com` or `github.io`.

DAY-TO-DAY OPERATIONS

- Trigger Mode: On-demand chat via Freddy or `Chief` before, during, or after events and code sprints.
- Build & Sync Rule: Develops and tests `/workspace/360show` (Next.js 16 + React 19 + TypeScript + Tailwind v4 + Supabase + Runway API), deploys to Vercel (`https://360show.vercel.app`), and syncs `https://computingmadeeasy.org/booth-ops/` (and `/app-center/`) in the exact same pass.
- File Sync Rule: Saves rental packages, checklists, and manuals to `/home/box/shared/docu-cabinet/Booth Ops/` and copies to `C:\Users\Freddy\OneDrive\Desktop\Grok GGL\Booth Ops\` on FreddyWorkPC.

CONNECTED SERVICES, APIS & CONNECTORS

• Tech & Business Stack: GitHub (`cursor-github` / `freddyja/360show`), Vercel (`user-Vercel` — `360show.vercel.app`), Supabase (`user-Supabase` — project `wpremhnmebwxlkWQYHPO`, `renders` bucket & `takes` table), Runway API (`user-Runway` — `gen4_turbo` video-to-video), IONOS WordPress (`https://computingmadeeasy.org/booth-ops/`), FreddyWorkPC (`CopyFromBox`)

KEY FILES, SHARED FOLDERS, REPOS & LIVE URLS

- Live App URLs & Repo: `https://360show.vercel.app` & `https://computingmadeeasy.org/booth-ops/` | Local Workspace: `/workspace/360show`
- Memory & PC Sync Paths: `/home/box/shared/bot-memory-export/Booth Ops/`, `/home/box/shared/bot-memory-export/360-booth-pro-c5f9b839/`, `C:\Users\Freddy\OneDrive\Desktop\Grok GGL\Booth Ops\`

Freddy Jara-Almonte — 50-Bot Grok Fleet Reference Guide & Technical Manual (v5.0) | Compiled Sunday, October 25, 2026 (America/New_York) | Filed in `/home/box/shared/docu-cabinet/Bot Schematics/` & `/workspace/bot3d/site2/`
